22 October 2021

The NDIA Annual Report 2020-21 is now available in PDF and accessible formats.

The report gives a summary of the NDIA's performance and operations for the 2020-21 financial year.

This year marks the first year the Scheme has been fully available throughout Australia. In the past year, we welcomed 74,620 new participants to the Scheme.

At 30 June 2021, more than 465,000 participants were receiving support from the NDIS. Over half of these participants were receiving disability-related supports for the very first time.

Throughout 2020-21, the NDIA continued to work across governments, including with the Department of Social Services, the NDIS Quality and Safeguards Commission, Services Australia, and state and territory governments, to support participants during the COVID-19 pandemic.

For the first time this year, the Annual Report includes a summary of the Annual Financial Sustainability Report 2020-21, which outlines the sustainability pressures facing the Scheme.

You can read more in the NDIA's Annual Report 2020-21.
