\* Trial participants are excluded. Participants with initial plans approved after the end of 2020-21 Q1 have been excluded. They are relatively new and it is too early to examine their durations to activation.

\*\* Plans less than 31 days in duration have been excluded. The number of plan reviews during the December 2020 quarter have been restated at 31 March 2021 due to retrospective changes in underlying data.

\*\*\* The logic used to measure these PSG timeframes has changed based on the use of new interactions in the CRM system. The result for PSG 11 for the March quarter uses the new logic whereas the results for PSG 5 for both quarters use the new logic. Despite current underachievement of PSG 11 regarding facilitating scheduled reviews, the NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.

\*\*\*\* The target timeframe for PSG 6 has been reduced from 70 to 56 days in early 2021. The result for the March 2021 quarter is based on the 56 day timeframe while the result for the December 2020 quarter is based on the 70 day timeframe.
