¹ In the September 2023 quarter, the early childhood approach applies to children younger than nine, following implementation of the ECEI reset age range change project. This change will occur over the next two years and ensures children and their families are supported by an early childhood partner during and after their transition to primary school. This is a change from the June 2023 quarter, where the early childhood approach applied to children younger than seven.

² Trial participants (participants with initial plans approved prior to 1 July 2016) and those with initial plans approved after the end of 2022-23 Q3 have been excluded.

³ Plans less than 31 days in duration have been excluded from this tabulation, as these reassessments are more likely to represent corrections to the plan rather than a new plan reassessment to address a change in circumstance.

⁴ The number of CALD participants excludes First Nations participants.

⁵ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants (participants with initial plans approved prior to 1 July 2016) are excluded.

⁶ "n/a" means that results cannot be measured.

• The PSG metrics are based on the recommendations of the 2019 Tune Review. The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022. It introduces changes that provide greater flexibility for participants and the NDIA to amend plans.

¹ PSG results in the previous quarter may be restated due to ongoing logic refinement and changes in data quality.

² "n/a" means that results cannot be measured.

³ ECA stands for Early Childhood Approach.

Total plan inflation (current quarter % per annum) ^{5 6}	12.5%	10.2%
Inflation at plan reassessment (current quarter % per annum)	4.8%	5.3%
Inflation within a plan, between reassessments (current quarter % per annum)	7.7%	4.9%
Socioeconomic equity (%) ⁷	109%	110%

- Total annualised plan budgets at 30 September 2023 were \$745m and payments from 1 July 2023 were \$150m.
- The number of active providers at the end of September is 1,747, growing by 4% in the quarter.
- Utilisation has been 77% from 1 January 2023 to 30 June 2023, compared with an adjusted national benchmark of 79%.
- There were no providers receiving more than 70% of payments.
- The average annualised plan budget ⁸ at the end of September for active participants is \$70,300 (\$419,600 for participants in Supported Independent Living (SIL) and \$48,800 for participants not in SIL).
- The average payments ⁹ for the 12 month ending 30 September 2023 are \$55,600 (\$378,500 for participants in Supported Independent Living (SIL) and \$36,000 for participants not in SIL).

¹ Active providers refer to those who have received payment for supports provided to Agency-managed participants and plan managers.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in Supported Independent Living (SIL) in each service district and the length of time participants have been in the Scheme.

³ The payment enquiries come from the Provider Portal, Participant Portal and NDIS App.

⁴ Total annualised plan budgets refer to those in the current plans of active participants at the end of quarter.

⁵ Total plan inflation consists of plan budget changes occurring at plan reassessment as well as changes occurring within a plan between reassessments.

⁶ The Annual Pricing Review saw price limit increases on 1 July where unspent portions of plan budgets were increased in line with indexation rates in July to maintain the purchasing power of remaining plans. There has been a one-off 2.4% increase in intraplan and total inflation during the month of July 2023.

⁷ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top four IEO deciles divided by the average annualised plan budget of participants residing in the bottom four IEO deciles (participants not in SIL and aged 0 to 64).

⁸ Average annualised plan budgets are derived from total annualised plan budgets in the current plans of active participants at 30 September 2023.

⁹ Average payments are calculated as the average of the annualised monthly payments in the same 12 month period, weighted by the participants that are active in each month.
