¹ The early childhood approach indicators under the new system (PACE) continue to be refined. Some metrics are still unavailable and "n/a" has been substituted until these are resolved further.

² Trial participants (participants with initial plans approved prior to 1 July 2016) and those with initial plans approved after the end of 2023-24 Q1 have been excluded.

³ Plans less than 31 days in duration have been excluded from this tabulation, as these reassessments are more likely to represent corrections to the plan rather than a new plan reassessment to address a change in circumstance.

⁴ The number of CALD participants excludes First Nations participants.

⁵ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants (participants with initial plans approved prior to 1 July 2016) are excluded.

⁶ New metrics for the participant satisfaction survey have been introduced in 2023-24 Q3, with the introduction of PACE and the Performance Management Framework. Where the results remain unavailable, "n/a" has been substituted until data becomes available.

• The PSG metrics are based on the recommendations of the 2019 Tune Review. The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022. It introduces changes that provide greater flexibility for participants and the NDIA to amend plans.

¹ From the March 2024 quarter, performance is being measured using the available data on processes and dates. Milestones are being built into the new computer system to improve the capture of performance data. Where the performance remains unavailable for this quarter, "n/a" has been substituted.

² ECA stands for early childhood approach.

- Total annualised plan budgets at 31 March 2024 were \$1,277m and payments from 1 July 2023 were \$721m.
- The number of active providers at the end of March is 1,883, growing by 3% in the quarter.
- Utilisation has been 72% from 1 July 2023 to 31 December 2023, with no service districts in Tasmania more than 10 percentage points below the adjusted national benchmark.
- There were no service districts where the top 10 providers provide more than 70% of payments.

Distribution of service districts by plan utilisation ²

Distribution of service districts by market concentration

Service districts between 5% and 10% below plan utilisation benchmark:

- TAS South East: 70% vs 79% benchmark
- TAS South West: 71% vs 80% benchmark
- TAS North: 72% vs 79% benchmark
- TAS North West: 74% vs 80% benchmark

Service districts having between 45% and 70% of payments going to the 10 largest providers:

- TAS North West: 55% vs 70% benchmark
- TAS South West: 49% vs 70% benchmark
- TAS South East: 47% vs 70% benchmark

¹ Active providers refer to those who have received payment for supports provided to Agency-managed participants and plan managers.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in Supported Independent Living (SIL) in each service district and the length of time participants have been in the Scheme.

³ The payment enquiries come from the Provider Portal, Participant Portal and NDIS App.

⁴ Total annualised plan budgets refer to those in the current plans of active participants at the end of quarter.

⁵ Total plan inflation consists of plan budget changes occurring at plan reassessment as well as changes occurring within a plan between reassessments.

⁶ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).

- The average annualised plan budget at the end of March for active participants is \$91,500 (\$61,000 for participants not in SIL and \$468,300 for participants in SIL).
- The average payments for the 12 months ending 31 March 2024 are \$69,700 (\$42,800 for participants not in SIL and \$400,300 for participants in SIL).
- TAS South West has the highest average annualised plan budgets and TAS North West has the highest average payments across all participants.

¹ There are no active participants as at 31 March 2024 residing in 'Other' service districts. 'Other' includes participants with service district information missing. The average annualised plan budgets and average payments for this group are not shown.
² Average annualised plan budgets are derived from total annualised plan budgets in the current plans of active participants as at 31 March 2024. Average payments are calculated as the average of the annualised monthly payments in the same 12 month period, weighted by the participants that are active in each month.
³ Figures are not shown if there is insufficient data in the service district.
