

The Co-design Advisory Group provides strategic advice to the NDIA on the implementation of co-design and engagement processes in the disability community.

Co-design Advisory Group members work together to:

- ensure disability community perspectives on issues facing the NDIS are represented
- gather feedback on the co-design priorities and approaches with peers and members and
- provide and receive strategic advice on the design, implementation and evaluation of co-design and engagement, among other things.

Co-design Advisory Group meetings are held monthly.
