

We want to thank the community for their feedback on the proposed reforms to the NDIS.

To improve the NDIS, we need the expertise and advice of participants, their families and carers, providers, the disability sector and community.

On this page, you will find submissions we have received from individuals and organisations in recent consultations.

You can search or filter submissions by name, topic or location.

Releasing feedback is part of our ongoing commitment to NDIS participants, providers and the disability sector for greater transparency.

In publishing these submissions, we aim to share openly what the community have said to us.

The views and recommendations expressed in these submissions are those of the respective authors, and not of the NDIA or the Australian Government.

We are not endorsing any comments or opinions the submissions contain. We also accept no responsibility for the accuracy or completeness of any material contained in these submissions.

Please note:

- We only publish submissions where consent has been provided.
- Submissions may have been edited to remove certain words.
- We may also remove identifying information to [protect the privacy](#) of respondents.
- Due to the volume of submissions we receive, we sometimes need to publish them in batches.

We also warn that some submissions contain content that may be distressing. Reader discretion is advised.

If you have any questions about a submission, please email agencypolicy@ndis.gov.au
