- \$36.6m in 2014-15,
- \$48.6m in 2015-16,
- \$77.8m in 2016-17,
- \$150.4m in 2017-18,
- \$47.5m in 2018-19 to date.

Overall,

- 55% of committed supports were utilised in 2013-14,
- 71% in 2014-15,
- 74% in 2015-16,
- 78% in 2016-17,
- 80% in 2017-18.

The 2017-18 and 2018-19 experience is still emerging.

## Providers and Markets

1,245 approved providers, a 7% increase for the quarter.

29% of approved providers were active in Tasmania at 30 September 2018, and 71% were yet to have evidence of activity.

70-85% of payments made by the NDIA are received by 25% of providers.

25% of service providers are individuals/sole traders.

## Mainstream Interface

94% of active participants with a plan approved in 2018-19 Q1 access mainstream services.

# Participants and Planning

As the transition phase to full scheme continues, the NDIS in Tasmania continues to grow with 609 additional participants with approved plans this quarter.

# Summary

The NDIS is transitioning to full-scheme according to phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

## Plan approvals by participant referral pathway

# Participant Profiles by Age Group

**Demographic profile of active participants with a plan approved in 2018-19 Q1, compared with plan approvals as at 30 June 2018, by age group.**

**Around 17% of participants entering this quarter are aged 0 to 6 years. This compares with 4% in prior quarters.**

**Around 54% of participants entering in this quarter are aged 35 to 54 years. This compares with 6% for these age groups in prior quarters and reflects the phasing schedule.**

**Active participants with a plan approved in 2018-19 Q1 by age group**

**% of active participants with a plan approved by age group**

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q1

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Participant Profiles by Disability Group

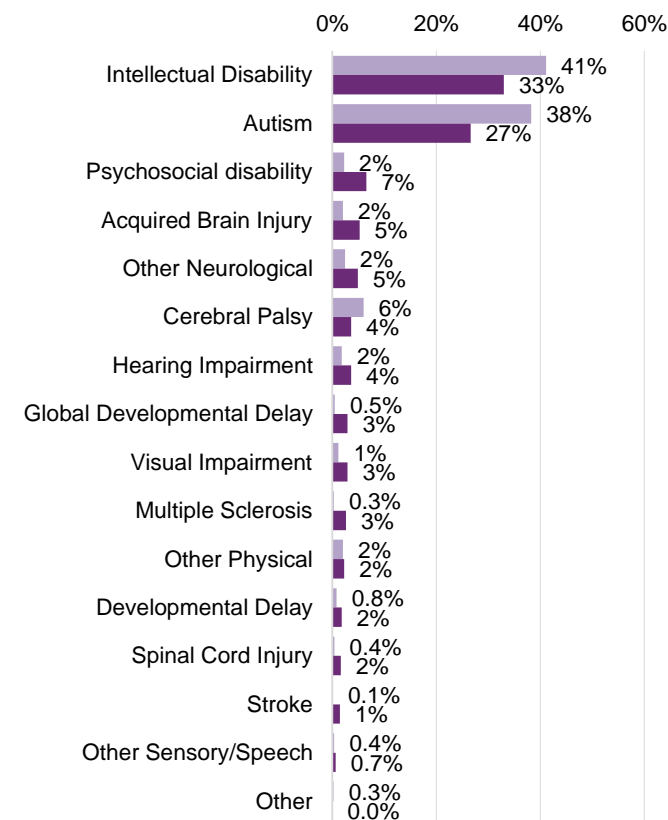

**Demographic profile of active participants with a plan approved in 2018-19 Q1, compared with plan approvals as at 30 June 2018, by disability group.**

**33% of participants entering in 2018-19 Q1 have a primary disability group of Intellectual Disability, compared to 41% in previous quarters.**

**Active participants with a plan approved in 2018-19 Q1 by disability group**

**% of active participants with a plan approved by disability group**

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q1

Note 1: Of the 201 active participants identified as having an intellectual disability, 16 (8%), have Down syndrome.

Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.

# Participant Profiles by Level of Function

Demographic profile of active participants with a plan approved in 2018-19 Q1, compared with plan approvals as at 30 June 2018, by level of function.

For participants with a plan approval in the current period:

- 24% of active participants had a relatively high level of function
- 51% of active participants had a relatively moderate level of function
- 25% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.

# Participant Profiles by Gender

Demographic profile of active participants with a plan approved in 2018-19 Q1, compared with plan approvals as at 30 June 2018, by gender.

The majority of participants are males.

# Participant Profiles

Demographic profile of active participants with a plan approved in 2018-19 Q1, compared with plan approvals as at 30 June 2018.

Of the participants with a plan approved in 2018-19 Q1:

- 7.1% were Aboriginal or Torres Strait Islander, compared with 7.8% for prior periods.
- 1.3% were young people in residential aged care, compared with 0.2% for prior periods.
- 4.8% were culturally and linguistically diverse, compared with 2.0% for prior periods.

# Plan Management Support Coordination

The proportion of participants who are fully or partly self-managing their plan was higher in 2018-19 Q1 (21%), compared with prior quarters of transition (18%).

41% of participants who have had a plan approved in 2018-19 Q1 have support coordination in their plan, compared to 38% in prior quarters of transition.

Prior quarters (transition only)

2018-19 Q1

# Plan Activation

Plan activation refers to the amount of time between plan approval and the commencement of the participant receiving support.

The percentage of plans activated within 90 days of approval were:

- 58% of plans approved in prior quarters
- 69% of plans approved in 2017-18 Q3.

Plan activation can only be approximated using data on payments. As there is a lag between when support is provided and payments made, these statistics are likely to be conservative. That is, it is likely that plan activation is faster than presented. Further, in-kind supports have been excluded from the calculation, which contributes to the conservative figures.

Duration to Plan activation for initial plans

Prior Quarters (Transition Only)

2017-18 Q3

■ Less than 30 days   ■ 30 to 59 days   ■ 60 to 89 days  
 ■ 90 to 119 days   ■ 120 days and over   ■ No payments

Note: Plans approved after the end of 2017-18 Q3 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.

# Participant Outcomes

Information was collected from 99% of participants who have received their initial plan since 1 July 2016 (baseline outcome measures).

- 68% of participants aged 0 to before school are able to make friends outside of family/carers, compared to 67% of participants from school age to 14
- 44% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 21% - 34% for other age groups
- 78% of participants from school age to 14 attend school in a mainstream class, compared to 67% of participants aged 15 to 24
- 23% of participants aged 25 and over have a paid job, compared to 8% of participants aged 15 to 24
- 56% of participants aged 25 and over choose what they do every day, compared to 55% of participants aged 15 to 24

Selected key baseline indicators for participants

# Family/Carers Outcomes

The percentage of participants' family/carers:

- working in a paid job was highest for participants aged 0 to 14 (42%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (78%)
- who have friends and family they can see as often as they like was highest for participants aged 25 and over (54%)
- who feel in control selecting services was highest for participants aged 25 and over (46%)
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (88%)

Selected key baseline indicators for families and carers of participants

# Has the NDIS helped? Participants

## Perceptions of whether the NDIS has helped.

Participants who entered the Scheme between 1 October 2016 and 30 September 2017 and had a plan review approximately one year later were asked questions about whether the NDIS had helped them.

The percentage responding 'Yes' was highest for the domain of Daily Living for each age group with sufficient data to report.

The national report includes data on participants who entered the Scheme in 2016-17 Q1 and were asked questions about whether the NDIS had helped them at the end of their second year of the Scheme (as well as at the end of their first year in the Scheme). This gives an indication of the effect of the NDIS on participants over a longer period of time. As only one quarter of data is available, results by State/Territory are not yet available.

Note: There was insufficient data for participants aged 0 to before school

# Has the NDIS helped? Family/Carers

## Perceptions of whether the NDIS has helped.

Families and carers of participants who entered the Scheme between 1 October 2016 and 30 September 2017 and had a plan review approximately one year later were asked questions about whether the NDIS had helped them.

The NDIS has helped families and carers of participants most to access services, programs and activities and to feel supported.

# Participant Satisfaction

Due to low number of participant survey responses in 2018-19 Q1, participant satisfaction is not shown for this quarter.

A new participant satisfaction survey has been developed. Going forward it will better record the experience of NDIS participants, and their families and carers, at different stages of the participant pathway.

Proportion of participants describing satisfaction with the Agency's planning process as good or very good - by quarter

Note: Participant satisfaction results are not shown if there is insufficient data in the group.

# Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Overall, \$10.0m has been paid to providers and participants for supports provided in 2013-14, \$36.6m in 2014-15, \$48.6m in 2015-16, \$77.8m in 2016-17, \$150.4m in 2017-18 and \$47.5m in 2018-19 Q1.

# Summary

This section presents information on the amount committed in plans and payments to service providers and participants.

## Key Statistics

**\$422.3**

**\$76.7**

MILLION OF SUPPORTS IN RESPECT OF 2018-19 Q1

\$10.0M HAS BEEN PAID TO PROVIDERS AND PARTICIPANTS FOR SUPPORTS PROVIDED IN 2013-14, \$36.6M IN 2014-15, \$48.6M IN 2015-16, \$77.8M IN 2016-17, \$150.4M IN 2017-18 AND \$47.5M IN 2018-19 Q1.

OVERALL, 55% OF COMMITTED SUPPORTS WERE UTILISED IN 2013-14, 71% IN 2014-15, 74% IN 2015-16, 78% IN 2016-17 AND 80% IN 2017-18.

THE 2017-18 AND 2018-19 EXPERIENCE IS STILL EMERGING.

# Committed Supports and Payments

Committed supports by year that the support is expected to be provided, compared with committed supports that have been used (paid).

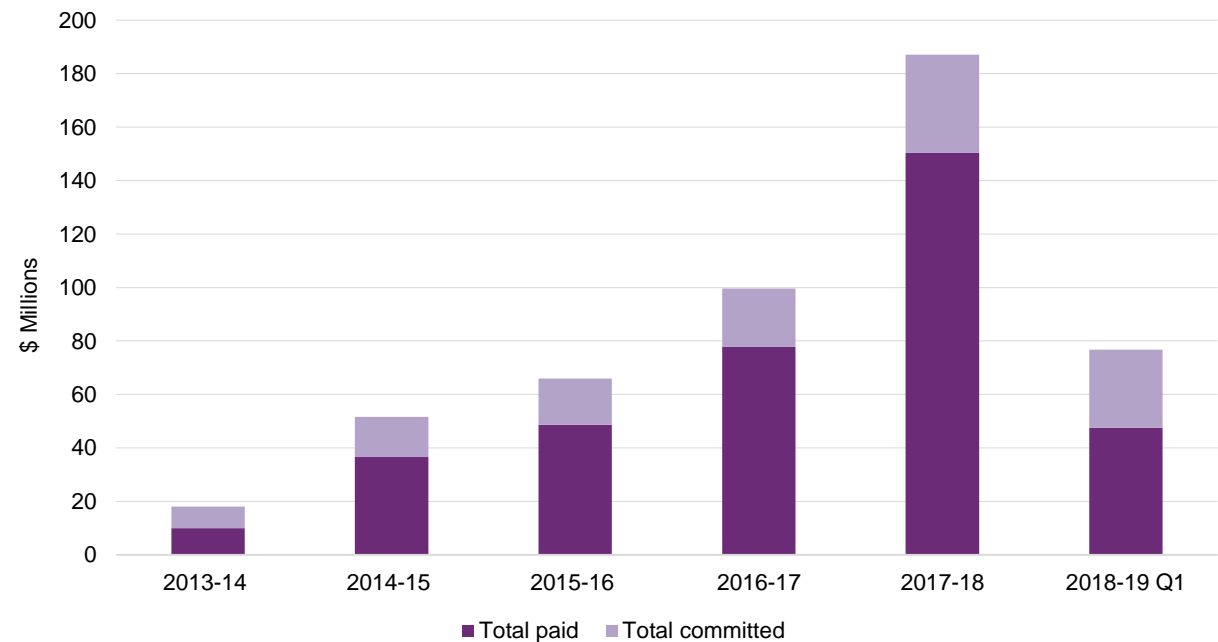

Of the \$499.0 million that has been committed in participant plans, \$370.9 million has been paid to date.

In particular, for supports provided in:

- 2013-14: \$10.0m has been paid
- 2014-15: \$36.6m has been paid
- 2015-16: \$48.6m has been paid
- 2016-17: \$77.8m has been paid
- 2017-18: \$150.4m has been paid
- 2018-19 Q1: \$47.5m has been paid

Committed and paid by expected support year

\$Million	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 Q1	Total
Total committed	18.0	51.6	65.9	99.6	187.1	76.7	499.0
Total paid	10.0	36.6	48.6	77.8	150.4	47.5	370.9

# Committed Supports by Cost Band

As at September 2018 the average annualised committed supports have remained consistent with prior quarters when participants with shared supported accommodation (SSA) supports are included.

This is also the case when SSA is excluded.

Distribution of average annualised committed supports by cost band (including SSA)

Distribution of average annualised committed supports by cost band (excluding SSA)

# Committed Supports by Age Band

Average annualised committed supports increase steadily by age.

The average annualised committed supports for 35-54 year olds have reduced significantly during the quarter. This is because participants in these age groups as at 30 June 2018 were predominantly in SSA and hence the average committed supports were very high. Since 30 June, many non-SSA participants at these ages have had initial plans approved which has resulted in lower average committed supports as at 30 September 2018.

Average annualised committed supports by age band

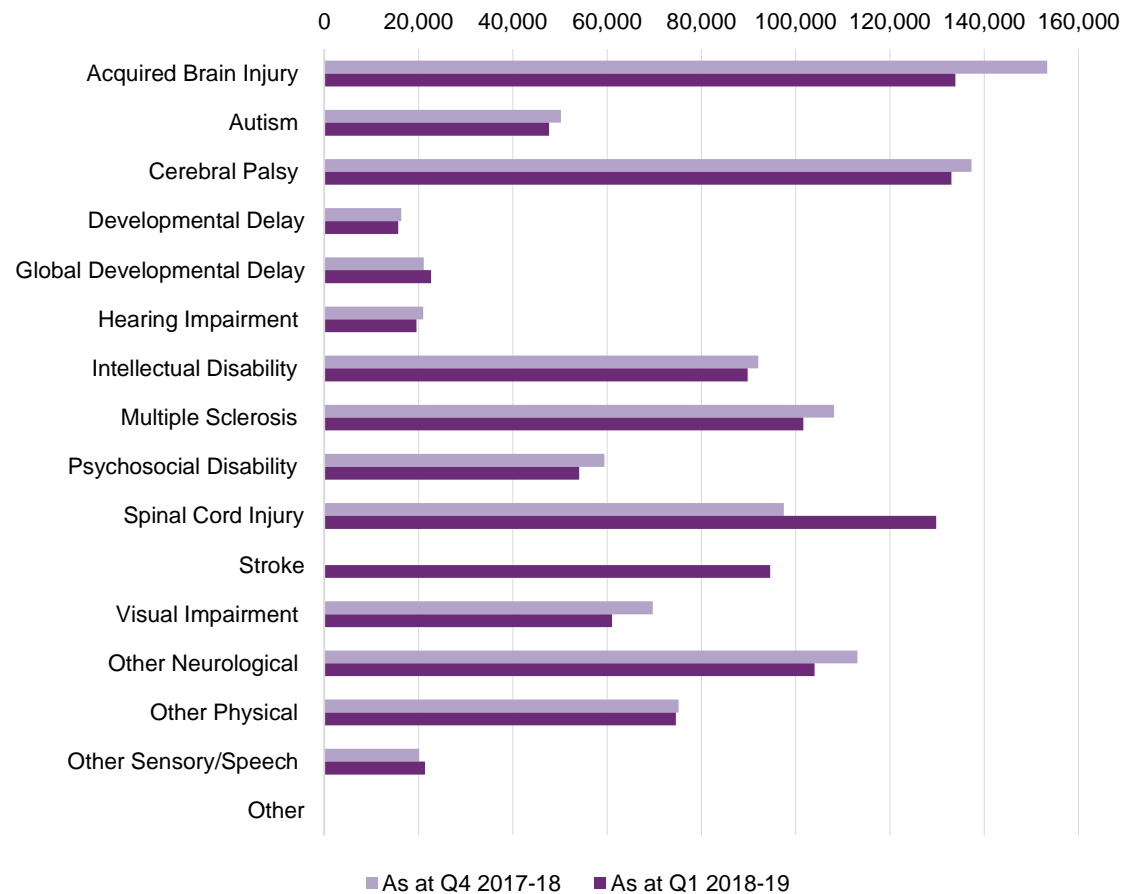

Note: Average annualised committed supports are not shown if there are insufficient data in the group.

# Committed Supports by Disability Group

Participants with Acquired Brain Injury, Cerebral Palsy and Spinal Cord Injury have the highest average annualised committed supports.

Average annualised committed supports by primary disability group

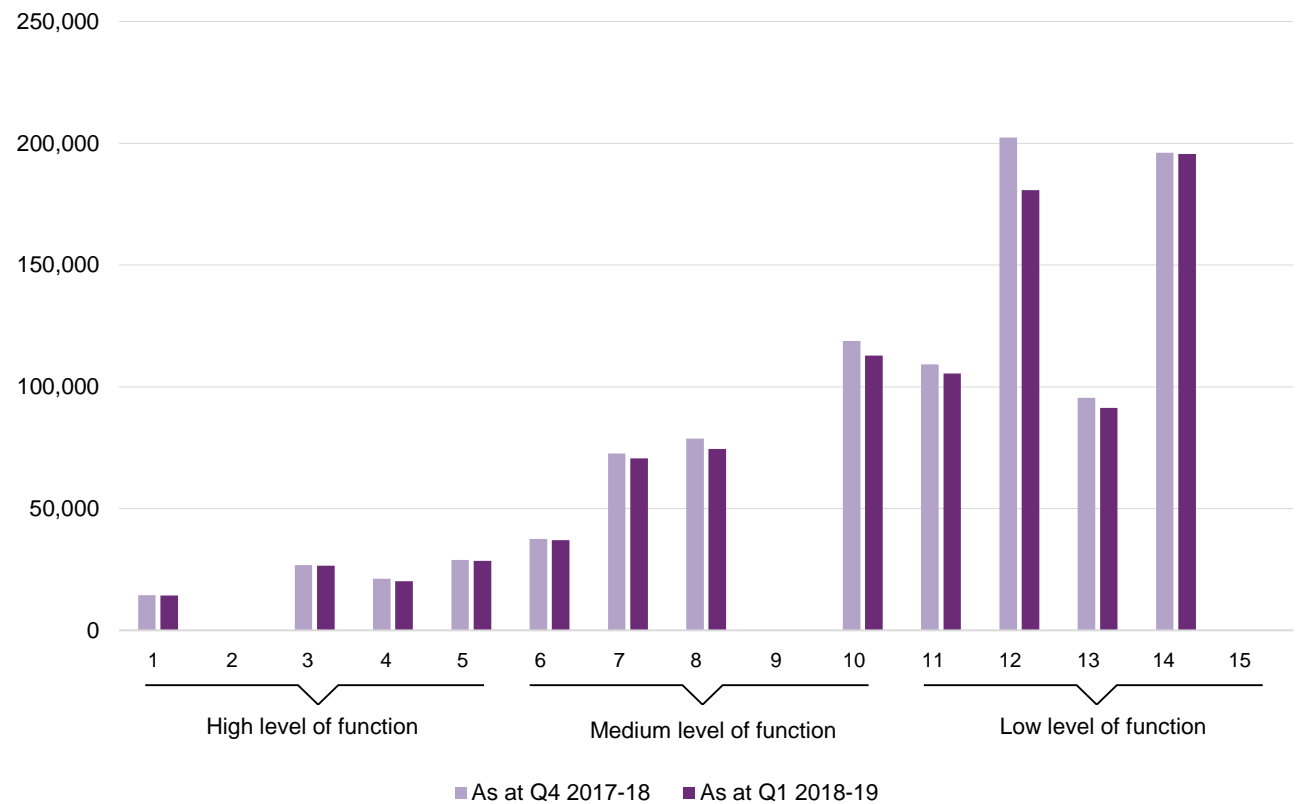

Note: Average annualised committed supports are not shown if there are insufficient data in the group.

# Committed Supports by Level of Function

The average annualised committed supports generally increase for participants with lower levels of function.

Average annualised committed supports by level of function

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group.

Note 2: High, medium and low function is relative within the NDIS population and not comparable to the general population.

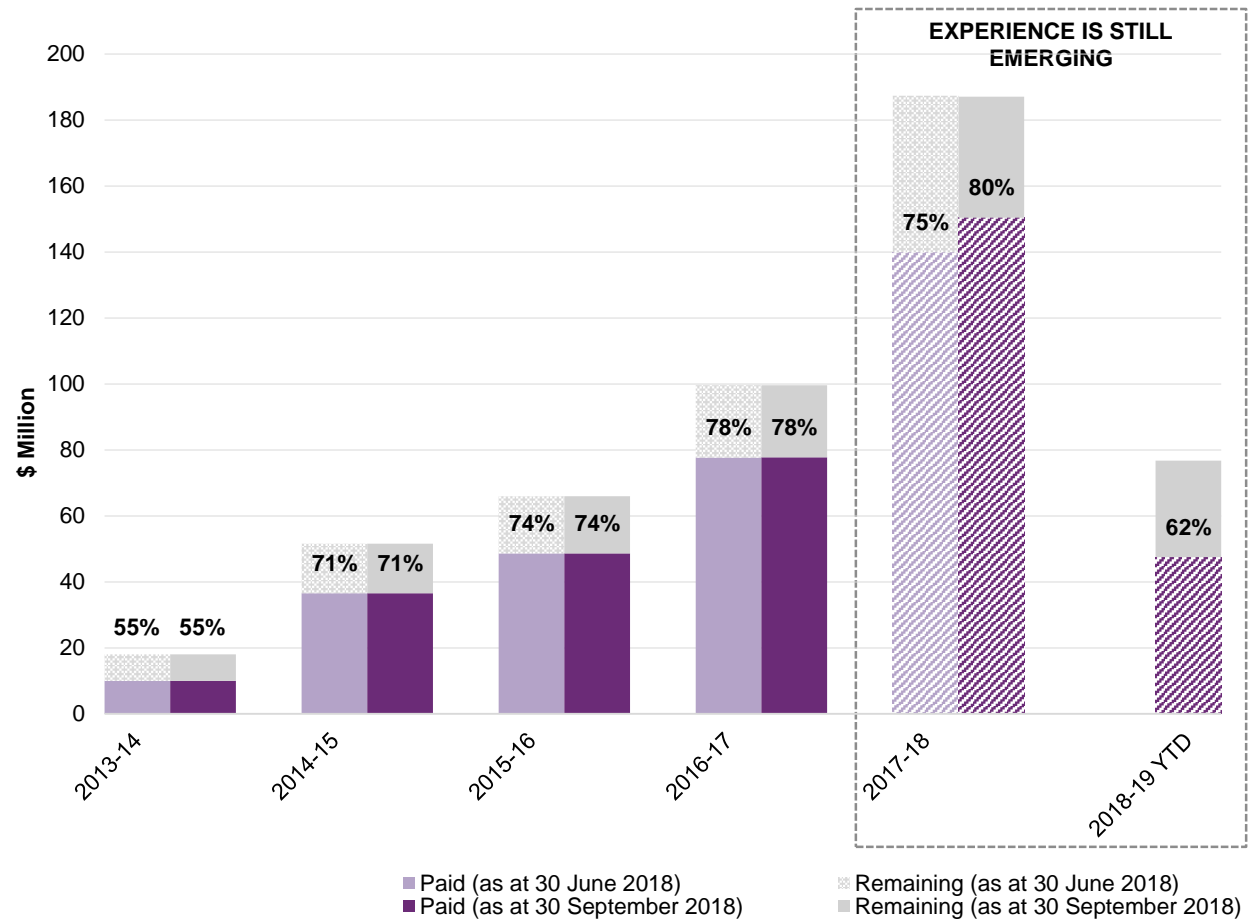

# Utilisation of Committed Supports

Utilisation of committed supports by year that the support was expected to be provided as at 30 June 2018, compared with 30 September 2018.

As there is a lag between when support is provided and when it is paid, the utilisation in 2017-18 and 2018-19 will increase.

The utilisation of committed supports in 2017-18 will increase further as there is a lag between when support is provided and when it is paid. The experience for 2018-19 is also still emerging.

Utilisation of committed supports as at 30 June 2018 and 30 September 2018

# Providers and Markets

The scale and extent of the market continues to grow, with a 7% increase in the number of providers during the quarter to 1,245.

29% of approved providers were active in Tasmania at 30 September 2018, and 71% were yet to have evidence of activity.

## Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

### Provider registration

- To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA.
- Providers register with the NDIA by submitting a registration request, indicating the types of support (registration groups) they are accredited to provide.

### How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.
