

Starting your plan

Information for people who do not speak English

The National Disability Insurance Agency (NDIA) wants to make sure you can find and use the supports in your NDIS Plan.

Once you have your NDIS Plan you will be supported by a:

- Partner In The Community (PITC) – a person who can help you manage your plan and get supports and services, or

- Support Coordinator – a person who can help you get supports and make them work together.

A PITC or Support Coordinator can help you find a service provider who speaks your language.

If you can't find a service provider who speaks your language, you can get language services from TIS National.

Language services are available with supports to help you work with service providers who are registered with the NDIA.

Your PITC, Support Coordinator or NDIA Planner can help you get language support from TIS National.

Who do I speak to for more information?

To get more information, please speak with

- your PITC
- your Support Coordinator
- the NDIA.
