## Disability Reform Council Quarterly Performance Report

New South Wales - 31 March 2019

# Overview

This report is a summary of the performance and operations of the NDIA in New South Wales for Quarter 3 of 2018-19 (01 January 2019 - 31 March 2019).

It is the eleventh quarterly report during the NDIS Transition period, which commenced on 1 July 2016.

# Summary

## Participants and Planning

An additional 4,219 participants with plans this quarter.

At 31 March 2019, plans approved and ECEI referrals represent:

- 75% of bilateral estimate met since the commencement of transition (1 July 2016 - 31 March 2019)
- 75% of scheme to date bilateral estimate met (1 July 2013 - 31 March 2019)

Participant satisfaction has increased in the quarter, with 95% of participants surveyed rating their satisfaction with the Agency's planning process as either 'Good' or 'Very Good'.

## Committed Supports and Payments

\$7.6 billion has been paid to providers and participants:

- \$37.4m in 2013-14,
- \$141.3m in 2014-15,
- \$257.4m in 2015-16,
- \$1,215.1m in 2016-17,
- \$3,082.4m in 2017-18,
- \$2,903.6m in 2018-19 to date.

Overall,

- 74% of committed supports were utilised in 2013-14,
- 77% in 2014-15,
- 74% in 2015-16,
- 68% in 2016-17,
- 72% in 2017-18.

The 2018-19 experience is still emerging.

The lower proportion of utilisation in 2016-17 and 2017-18 reflects the increased amount of participants who received their first plans in these years. Participants tend to utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

## Providers and Markets

There were 8,716 registered providers at 31 March 2019.

61% of registered providers were active at 31 March 2019.

44% of registered providers are individuals/sole traders.

25% of registered providers are receiving 85-95% of payments made by the NDIA.

Note: The new NDIS Quality and safeguards Commission (NQSC) has been established to regulate providers in NSW and SA from 1 July 2018.

## Mainstream Interface

95% of active participants with a plan approved in 2018-19 Q3 access mainstream services.

# Participants and Planning

The NDIS in New South Wales continues to grow with 4,219 additional participants with approved plans this quarter.

In total, over 100,000 participants have now been supported by the NDIS in New South Wales, with 34% receiving support for the first time.

# Summary

The NDIS is fully operational and available in all areas of New South Wales.

## Key Statistics

**101,963**

PARTICIPANTS ARE NOW BEING SUPPORTED BY THE NDIS IN NEW SOUTH WALES, INCLUDING CHILDREN IN THE ECEI PROGRAM

**4,219**

INITIAL PLANS APPROVED IN 2018-19 Q3, EXCLUDING CHILDREN IN THE ECEI PROGRAM (REPRESENTING 4% GROWTH SINCE LAST QUARTER)

**1,446**

CHILDREN ARE BEING SUPPORTED IN THE ECEI PROGRAM, WITH 479 ADDITIONAL REFERRALS TO THE ECEI GATEWAY CONFIRMED IN 2018-19 Q3

**34,397**

PEOPLE ARE NOW RECEIVING SUPPORT FOR THE FIRST TIME

**75%**

OF BILATERAL ESTIMATE MET SINCE THE COMMENCEMENT OF TRANSITION (1 JULY 2016 - 31 MARCH 2019)

**75%**

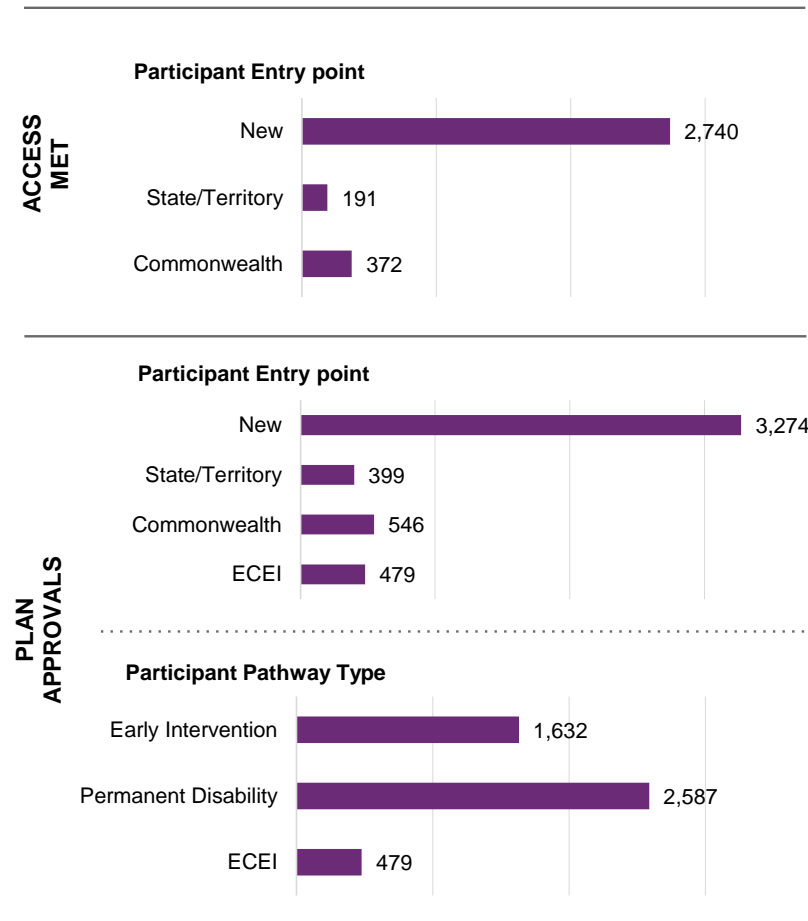

OF SCHEME TO DATE BILATERAL ESTIMATE MET (1 JULY 2013 - 31 MARCH 2019)

# Quarterly Intake

## 2018-19 Q3

Of the 3,303 participants deemed 'eligible' this quarter, 83% were 'New' participants (i.e. had not transitioned from an existing State/Territory or Commonwealth program).

Of the 4,219 plan approvals this quarter, 78% were 'New' participants (i.e. had not transitioned from an existing State/Territory or Commonwealth program), 61% entered with a permanent disability and 1,149 were previously confirmed as ECEI at 2018-19 Q2.

# Quarterly Intake Detail

Plan approval numbers have increased from 96,298 at the end of 2018-19 Q2 to 100,517 by the end of 2018-19 Q3, an increase of 4,219 approvals.

At the end of the quarter, 1,446 children are being supported in the ECEI gateway. Of these, 967 were previously confirmed as ECEI at 31 December 2018 and an additional 479 children entered the gateway this quarter.

Overall, 2,652 participants with approved plans have exited the Scheme, resulting in 99,311 active participants (including ECEI) as at 31 March 2019.

There were 22,536 plan reviews this quarter. This figure relates to all participants who have entered the scheme.

Change in plan approvals between 31 December 2018 and 31 March 2019

# Cumulative Position

At the end of 2018-19 Q3, the cumulative total number of participants receiving support was 101,963 (including 1,446 children supported through the ECEI gateway). Of these, 54,567 transitioned from an existing State/Territory program, 11,553 transitioned from an existing Commonwealth program and 34,397 participants are now receiving support for the first time.

Overall, since 1 July 2013, there have been 125,708 people with access decisions.

Cumulative position reporting is inclusive of trial participants for the reported period and represents participants who have or have had an approved plan.

Cumulative plan approvals compared with bilateral estimate

**75%**

of bilateral estimate met since the commencement of transition (1 July 2016 - 31 March 2019)

**75%**

of scheme to date bilateral estimate met (1 July 2013 - 31 March 2019)

**100,517**

plan approvals to date; 101,963 including ECEI confirmed

Plan approvals by participant referral pathway

# Participant Profiles by Age Group

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals at 31 December 2018, by age group.

48% of participants entering in this quarter are aged 0 to 6 years. This compares with 12% in prior quarters.

This is driven by a relatively high proportion of 'new' participants entering this quarter compared to prior quarters.

Active participants with a plan approved in 2018-19 Q3 by age group

% of active participants with a plan approved by age group

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q3

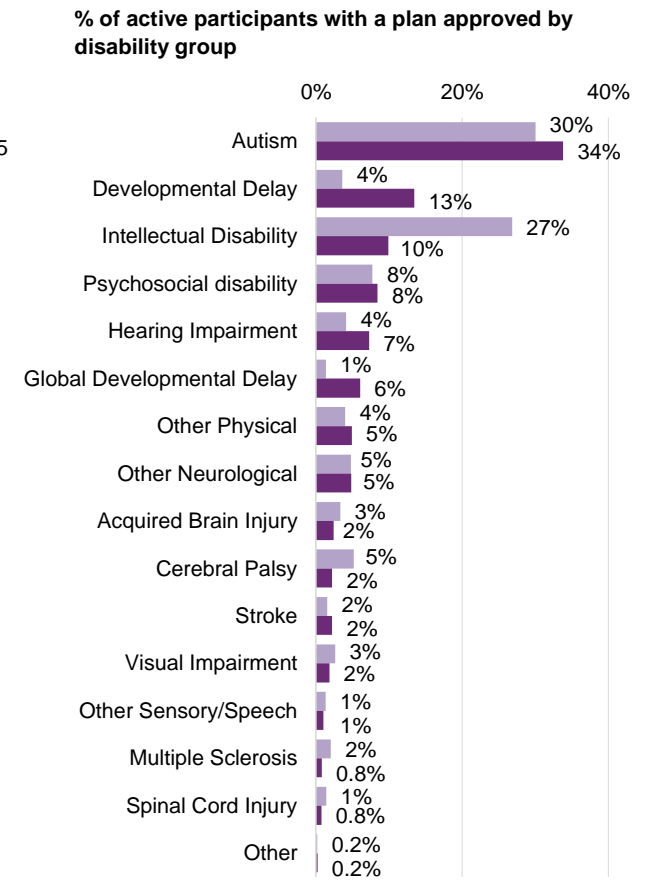

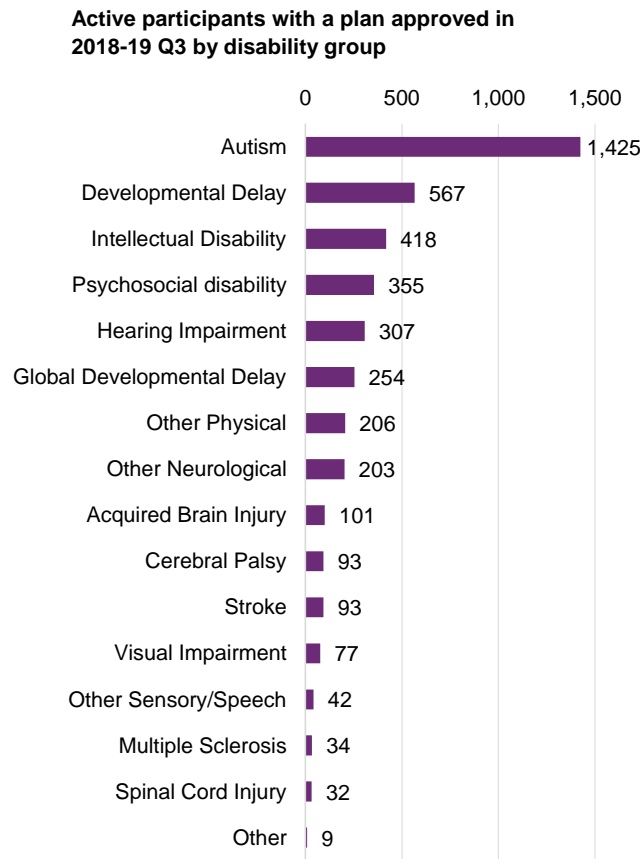

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Participant Profiles by Disability Group

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals at 31 December 2018, by disability group.

Of the participants entering this quarter, 34% have a primary disability group of Autism and 13% have a primary disability group of Developmental Delay.

This reflects the large proportion of children aged 0 to 6 years that entered in March 2019.

■ % of active participants with a plan approved in prior quarters  
 ■ % of active participants with a plan approved in 2018-19 Q3

Note 1: Of the 418 active participants identified as having an intellectual disability, 41 (10%) have down syndrome.  
 Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.

# Participant Profiles by Level of Function

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals at 31 December 2018, by level of function.

For participants with a plan approval in the current quarter:

- 35% of active participants had a relatively high level of function
- 36% of active participants had a relatively moderate level of function
- 29% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.

% of active participants with a plan approved by level of function

Note: An ICT issue has been identified and as a result, reporting by level of function is not accurate. This issue is currently under investigation and will be reconciled for reporting as at 30 June 2019.

# Participant Profiles by Gender

These charts show the demographic profile of active participants with a plan approved in 2018-19 Q3, compared with plan approvals as at 31 December 2018, by gender.

The majority of participants are males.

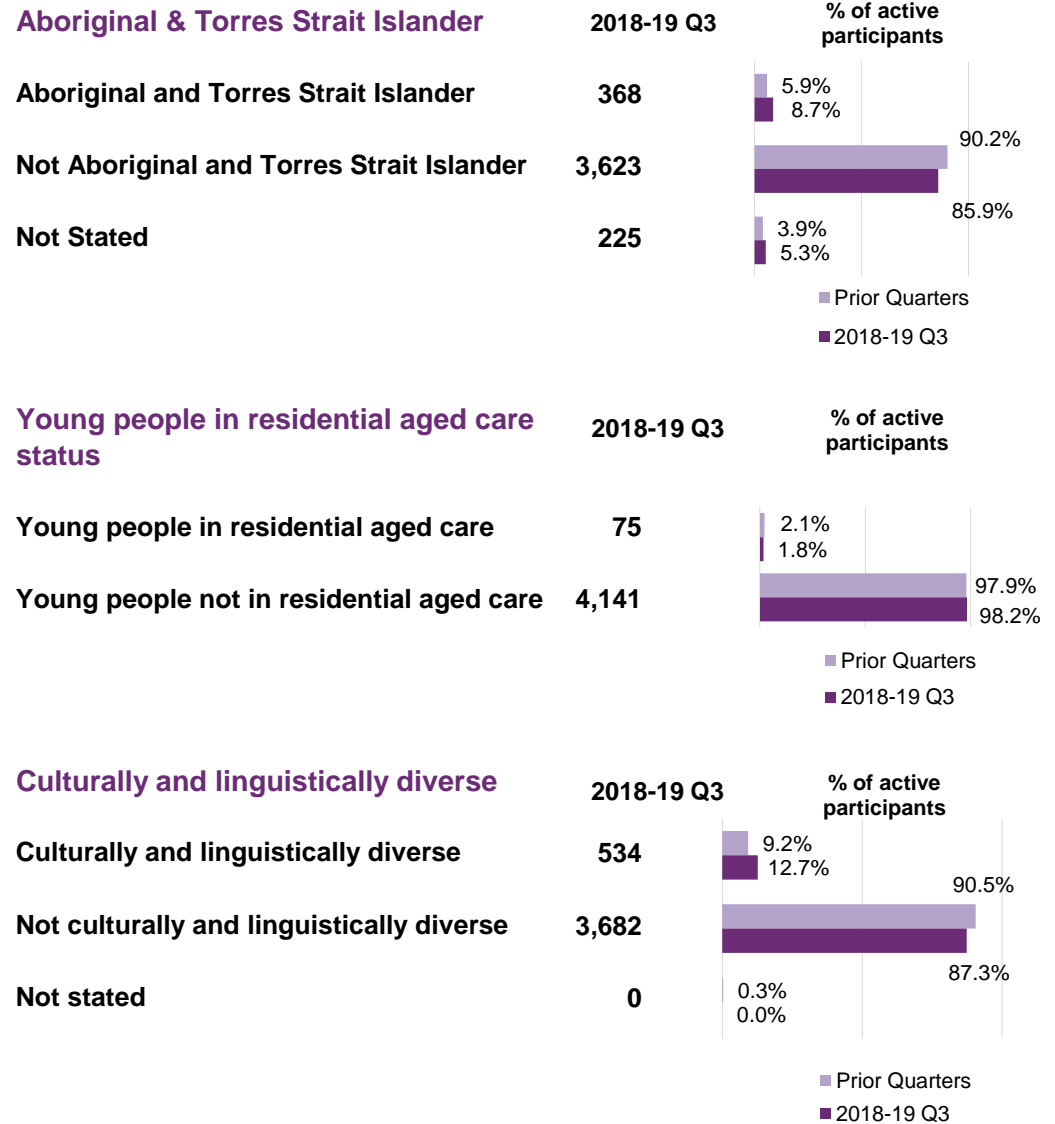

# Participant Profiles: Other

These bar charts show other demographic profiles of active participants with a plan approved in 2018-19 Q3, compared with plan approvals as at 31 December 2018.

Of the participants with a plan approved in 2018-19 Q3:

- 8.7% were Aboriginal or Torres Strait Islander, compared with 5.9% in previous periods combined.
- 1.8% were young people in residential aged care, compared with 2.1% in previous periods combined.
- 12.7% were culturally and linguistically diverse, compared with 9.2% in previous periods combined.

# Plan Management Support Coordination

The proportion of participants electing to fully or partly self-manage their plan was higher in 2018-19 Q3 at 26%, compared with 23% in previous quarters combined.

38% of participants who have had a plan approved in 2018-19 Q3 have support coordination in their plan, compared to 34% in previous quarters combined.

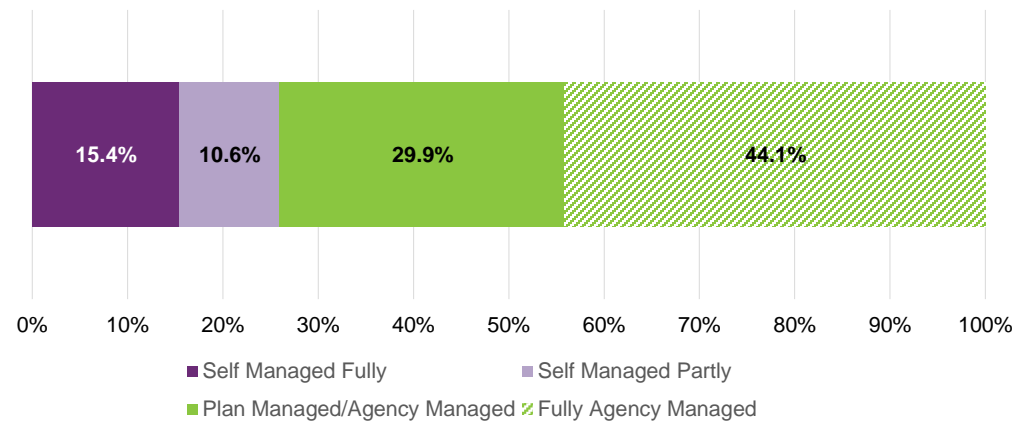

## Support Coordination

Prior quarters (transition only)

2018-19 Q3

# Plan Activation

Plan activation refers to the amount of time between a participant’s initial plan being approved, and the date the participant first receives support.

There has been a change in methodology used to calculate these results since the previous quarter. Duration to plan activation is now calculated as the time from a participant’s initial plan approval to when the participant first uses plan supports (previously only the initial plan for each participant was considered). In-kind supports are now also included (previously excluded). As a result, a higher proportion of participants are identified as activating their plans within 90 days, and a lower proportion have no payments.

The percentage of participants who activated plans within 90 days of initial plan approval was:

- 84% of participants entering in 2018-19 Q1
- 86% of participants entering in previous quarters combined

Plan activation figures are approximations based on payment data. As there is a lag between when the support is provided to a participant, and the payment being made, these statistics are a conservative estimate; it is likely plan activation is faster than presented.

Duration to Plan activation for participants with initial plan approval

Prior quarters (transition only)

2018-19 Q1

■ Less than 30 days    ■ 30 to 59 days    ■ 60 to 89 days  
 ■ 90 to 119 days    ■ 120 days and over    ■ No payments

Note: Participants with initial plans approved after the end of 2018-19 Q1 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.

# Participant Outcomes

This information on participant outcomes has been collected from 99% of participants who received their initial plan since 1 July 2016 (when they entered the scheme).

- 62% of participants aged 0 to before school are able to make friends outside of family/carers, compared to 62% of participants from school age to 14
- 52% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 31% - 35% for other age groups
- 56% of participants from school age to 14 attend school in a mainstream class, compared to 29% of participants aged 15 to 24
- 27% of participants aged 25 and over have a paid job, compared to 17% of participants aged 15 to 24
- 63% of participants aged 25 and over choose what they do every day, compared to 44% of participants aged 15 to 24

Selected key baseline indicators for participants

# Family/Carers Outcomes

The percentage of participants' families/carers when they entered the Scheme (baseline indicators):

- working in a paid job was highest for participants aged 15 to 24 (51%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (78%)
- who have friends and family they can see as often as they like was highest for participants aged 25 and over (47%)
- who feel in control selecting services was highest for participants aged 15 to 24 (37%)
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (85%)

Selected key baseline indicators for families and carers of participants

# Has the NDIS helped? Participants

This data reflects participants' perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question 'Has the NDIS helped?' to individuals who entered the Scheme between 1 July 2016 and 31 March 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

In general, participants' perceptions of whether the NDIS has helped improved from year one to year two, with the exception of the Work domain and Social community and civic participation for participants aged 0 to before school.

"Has the NDIS helped?" questions for participants

■ Year 1 ■ Year 2

# Has the NDIS helped? Family/Carers

This data reflects families and carers' perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question 'Has the NDIS helped?' to families and carers of individuals who entered the Scheme between 1 July 2016 and 31 March 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

Overall, family and carers' perceptions of whether the NDIS has helped was stable or improved from year one to year two.

"Has the NDIS helped?" questions for families and carers of participants

## Participants in Work

The NDIA is acutely aware of the benefits that employment brings to participants and tracks employment outcomes to see whether the NDIS has helped participants to find paid work.

Baseline measures on employment are collected as a participant enters the Scheme, after their first year and again at the end of their second year of the Scheme. This data relates to participants who entered the Scheme between 1 July 2016 and 31 March 2017.

The percentage of participants in paid work increased this quarter from 13% to 22% for those aged 15 to 24, but decreased from 26% baseline to 24% for those aged 25 and over. Overall, the percentage of participants in employment increased from 22% to 23%.

NDIS participants in paid employment, by age group.

## Participants involved in community and social activities

The number of participants engaging in community and social activities is one of the key measures for ensuring quality experiences and outcomes for participants.

For participants who entered the Scheme between 1 July 2016 and 31 March 2017, levels of engagement in community and social activity are being tracked to see whether the NDIS has helped them to increase their participation.

Across all age groups, there was considerable increase in the percentage of participants engaged in community and social activities this quarter. The growth was most prevalent for the 15 to 24 age group, which saw an increase from 31% to 45%.

NDIS Participants participating in social activities in their community, by age group.

# Participant Satisfaction

**95% of participants rated their satisfaction with the Agency's planning process as either good or very good in the current quarter. This has increased since the last quarter with sufficient data.**

**A new participant satisfaction survey has been developed. Going forward it will better record the experience of NDIS participants, and their families and carers, at different stages of the participant pathway.**

**Proportion of participants describing satisfaction with the Agency's planning process as good or very good - by quarter**

Participant satisfaction under the existing survey method continues to be high, but has fluctuated at around or below the trial site level.

# Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Of the \$11.1 billion that has been committed in participant plans, \$7.6 billion has been paid to date.

## Summary

This section presents information on the amount committed in plans and payments to service providers and participants.

### Key Statistics

**\$6.7**

BILLION OF COMMITTED SUPPORTS IN RESPECT OF PRIOR FINANCIAL YEARS INCLUDING TRIAL

**\$4.4**

BILLION OF SUPPORTS IN RESPECT OF 2018-19 TO DATE

SUMMARY OF PAYMENTS FOR SUPPORTS PROVIDED BY FINANCIAL YEAR SINCE THE NDIS TRIAL WAS LAUNCHED IN 2013-14:

2013-14:	\$37.4M
2014-15:	\$141.3M
2015-16:	\$257.4M
2016-17:	\$1,215.1M
2017-18:	\$3,082.4M
2018-19:	\$2,903.6M TO DATE.

PERCENTAGE OF COMMITTED SUPPORTS UTILISATION BY FINANCIAL YEAR:

2013-14:	74%
2014-15:	77%
2015-16:	74%
2016-17:	68%
2017-18:	72%

UTILISATION OF COMMITTED SUPPORTS IN 2018-19 IS STILL EMERGING.

# Committed Supports and Payments

This data shows the committed supports by the year they are expected to be provided, in comparison to the committed supports that have been paid.

Of the \$11.1 billion that has been committed in participant plans, \$7.6 billion has been paid to date.

Summary of committed supports paid in financial years since the NDIS trial launched:

- 2013-14: \$37.4m
- 2014-15: \$141.3m
- 2015-16: \$257.4m
- 2016-17: \$1,215.1m
- 2017-18: \$3,082.4m
- 2018-19 to date: \$2,903.6m

Committed and paid by expected support year

\$Million	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 to date	Total
Total committed	50.6	184.5	349.4	1,786.3	4,306.6	4,421.2	11,098.7
Total paid	37.4	141.3	257.4	1,215.1	3,082.4	2,903.6	7,637.2

# Committed Supports by Cost Band

This quarter, the distribution of average annualised committed supports has remained consistent with prior quarters. This is the case whether Supported Independent Living (SIL) supports are included or excluded in the figures.

Distribution of average annualised committed supports by cost band (including SIL)

Distribution of average annualised committed supports by cost band (excluding SIL)

# Committed Supports by Age Band

This quarter, the average annualised committed supports have remained consistent with prior quarters, increasing steeply between participants 0-6 through to age 25, stabilising at age 55 and reducing in participants of older years.

Average annualised committed supports by age band

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.

# Committed Supports by Disability Group

The highest average annualised committed supports are for participants with Spinal Cord Injury, Cerebral Palsy and Acquired Brain Injury

Average annualised committed supports by primary disability group

# Committed Supports by Level of Function

The average annualised committed supports generally increase among participants with higher needs.

Average annualised committed supports by level of function

Note 1: High, medium and low function is relative within the NDIS population and not comparable to the general population.

Note 2: An ICT issue has been identified and as a result, reporting by level of function is not accurate. This issue is currently under investigation and will be reconciled for reporting as at 30 June 2019.

# Utilisation of Committed Supports

This data demonstrates the utilisation of committed supports by the year they were expected to be provided at 31 December 2018 and 31 March 2019.

As there is a lag between when support is provided and when it is paid, the utilisation in 2018-19 will increase.

Experience shows that participants utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

There were a large number of participants who received their first plan in 2016-17 and 2017-18 which largely explains why utilisation rates are lower in these periods.

Experience for 2018-19 is still emerging.

Utilisation of committed supports as at 31 December 2018 and 31 March 2019

## Providers and Markets

The new NDIS Quality and Safeguards Commission (NQSC) commenced to regulate quality and safeguarding of NDIS supports and services. The NQSC has been active in New South Wales and South Australia from 1 July 2018, and will be in other jurisdictions starting from 1 July 2019.

Providers are required to renew their registration with the NQSC prior to a specified renewal date to avoid having their registration lapse. During 2018-19 Q3, the number of providers that had their registration with the Commission lapse was larger than the number of additional approved providers over the quarter and thus, the number of approved providers has decreased to 8,716.

61% of approved providers were active at 31 March 2019, and 39% were yet to have evidence of activity.

## Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

### Provider registration

- To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA in all States/Territories other than New South Wales and South Australia.
- Since 1 July 2018, providers in New South Wales and South Australia register with the NQSC by submitting a registration request, indicating the types of support they are accredited to provide.

### How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.

### Key Statistics

**8,716**

APPROVED PROVIDERS, 61% OF WHICH WERE ACTIVE IN NEW SOUTH WALES AT 31 MARCH 2019

**85-95%**

OF PAYMENTS MADE BY THE NDIA ARE RECEIVED BY 25% OF PROVIDERS

**44%**

OF SERVICE PROVIDERS ARE INDIVIDUALS/SOLE TRADERS

THERAPEUTIC SUPPORTS HAS THE HIGHEST NUMBER OF APPROVED SERVICE PROVIDERS, FOLLOWED BY HOUSEHOLD TASKS AND ASSISTANCE WITH TRAVEL/TRANSPORT ARRANGEMENTS

The new NDIS Quality and Safeguards Commission (NQSC) commenced to regulate quality and safeguarding of NDIS supports and services. The NQSC has been active in New South Wales and South Australia from 1 July 2018, and will be in other jurisdictions starting from 1 July 2019.

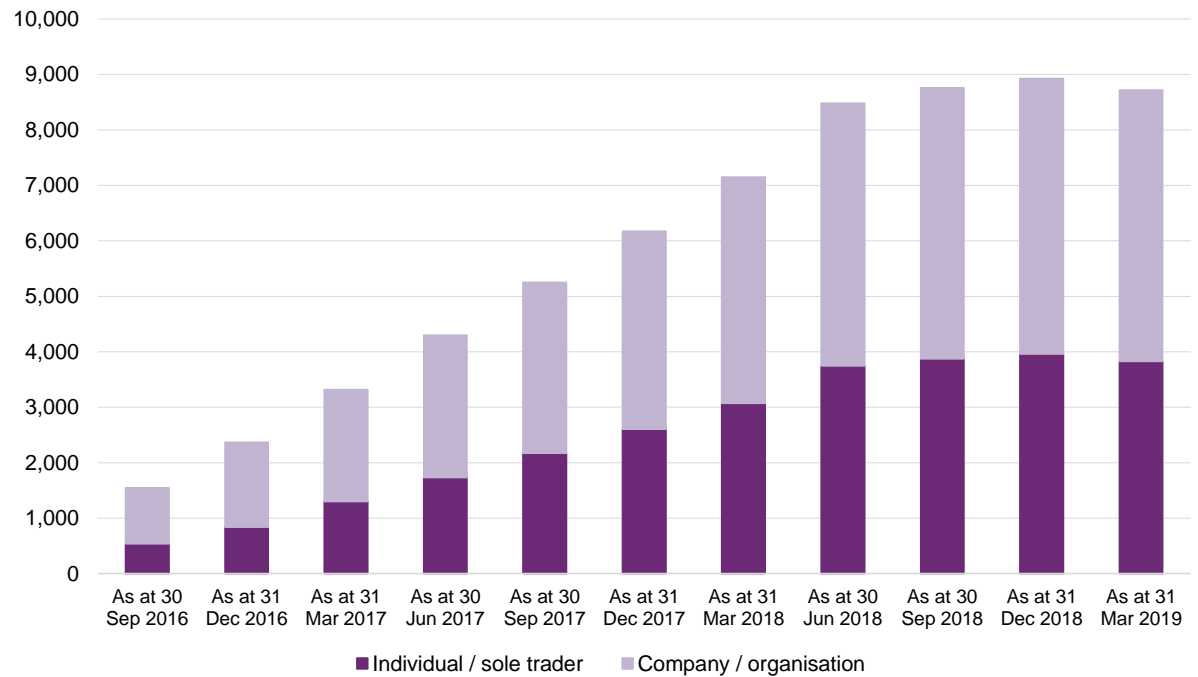

# Providers over time

As at 31 March 2019, there were 8,716 registered service providers, of which 3,828 were individual/sole trader operated businesses and 4,888 were companies or organisations.

**1.62**  
AVERAGE PROVIDERS PER PARTICIPANT

Providers are required to renew their registration with the NQSC prior to a specified renewal date to avoid having their registration lapse. During 2018-19 Q3, the number of providers that had their registration with the Commission lapse was larger than the number of additional approved providers over the quarter and thus, the number of approved providers has decreased to 8,716.

Approved providers over time by type of provider

44% of approved service providers are individuals/sole traders.

The number of approved service providers decreased slightly from 8,924 to 8,716 in the quarter.

## Proportion of Active Providers

As at 31 March 2019, 61% of providers were active and 39% were inactive.

Of the total providers, 911 began delivering new supports in the quarter.

**911**  
NUMBER OF PROVIDERS DELIVERING NEW SUPPORTS

# Approved Registration groups

The number of approved providers has remained steady or increased slightly for most registration groups over March 2019.

The registration groups with the largest numbers of approved providers have as a whole remained steady:

- **Therapeutic Supports:** from 4,096 to 4,177 (2% increase)
- **Household Tasks:** from 2,402 to 2,442 (2% increase)
- **Assistance with travel/transport arrangements:** from 1,710 to 1,733 (1% increase)
- **Assistance products for personal care and safety:** from 1,351 to 1,375 (2% increase)
- **Early Intervention supports for early childhood:** from 1,301 to 1,344 (3% increase)

Approved providers by registration group and percentage change over the quarter

# Active Registration groups

The number of active providers in each registration group has increased for most registration groups over the quarter.

The registration groups with the largest numbers of active providers continue to grow:

- **Therapeutic Supports:** from 2,667 to 2,763 (4% increase)
- **Household tasks:** from 1,219 to 1,268 (4% increase)
- **Participation in community, social and civic activities:** from 716 to 741 (3% increase)
- **Early Intervention supports for early childhood:** from 634 to 657 (4% increase)
- **Daily Personal Activities:** from 623 to 653 (5% increase)

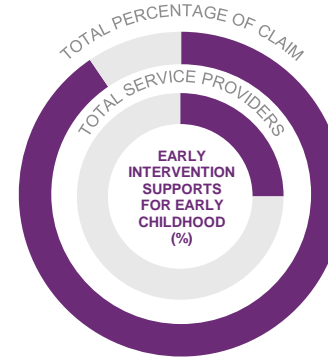

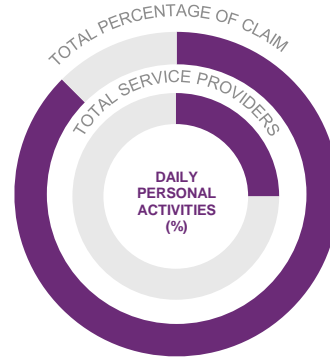

Active providers by registration group and percentage change over the quarter

# Market share of top providers

25% of service providers received 85-95% of the dollars paid for major registration groups.

Market share of the top 25% of providers by registration group.

# Information, Linkages and Capacity Building

Information, Linkages and Capacity Building was covered in the national version of the COAG Quarterly Performance Report.

# Mainstream Interface

The proportion of participants entering in the current quarter and accessing mainstream services is slightly higher compared to prior quarters.

# Mainstream Interface

Of the total number of active participants with a plan approved in 2018-19 Q3, 95% access mainstream services, an increase from prior quarters. Participants are accessing mainstream services predominantly for health and wellbeing, lifelong learning and daily activities.

# Financial Sustainability

Financial Sustainability was covered in the national version of the COAG Quarterly Performance Report.
