Overview

This report is a summary of the performance and operations of the NDIA in Queensland for Quarter 4 of 2018-19 (01 April 2019 - 30 June 2019).

It is the twelfth quarterly report during the NDIS Transition period, which commenced on 1 July 2016.
### Executive summary

**Providers and Markets**

There were 5,964 registered providers at 30 June 2019, representing a 10% increase for the quarter.

45% of registered providers were active at 30 June 2019.

41% of registered providers are individuals/sole traders.

25% of registered providers are receiving 80-95% of payments made by the NDIA.

### Summary

<table>
<thead>
<tr>
<th>Participants and Planning</th>
<th>Committed Supports and Payments</th>
<th>Providers and Markets</th>
<th>Mainstream Interface</th>
</tr>
</thead>
</table>
| An additional 6,772 participants with plans this quarter (excluding ECEI). | $2.0 billion has been paid to providers and participants:  
• $0.3m in 2015-16,  
• $111.3m in 2016-17,  
• $496.2m in 2017-18,  
• $1,403.1m in 2018-19. | There were 5,964 registered providers at 30 June 2019, representing a 10% increase for the quarter. | 93% of active participants with a plan approved in 2018-19 Q4 access mainstream services. |
| At 30 June 2019, plans approved and ECEI referrals represent:  
• 59% of 2018-19 bilateral estimate met (1 July 2018 - 30 June 2019)  
• 57% of scheme to date bilateral estimate met (1 April 2016 - 30 June 2019) | Overall,  
• 32% of committed supports were utilised in 2015-16,  
• 56% in 2016-17,  
• 63% in 2017-18.  
The 2018-19 experience is still emerging. | 45% of registered providers were active at 30 June 2019. | |
| Participant satisfaction has remained consistent with the previous quarter, with 90% of participants surveyed rating their satisfaction with the Agency's planning process as either 'Good' or 'Very Good'. | Utilisation has increased in each of the first three support years. This is to be expected given that more participants are now on a second or subsequent plan, as it takes time to familiarise with the NDIS and decide which supports to use. | 41% of registered providers are individuals/sole traders. | |
|  | | 25% of registered providers are receiving 80-95% of payments made by the NDIA. | |
Participants and Planning

The NDIS in Queensland continues to grow with 6,772 additional participants with approved plans this quarter.

In total, over 52,000 participants have now been supported by the NDIS in Queensland, with 29% receiving support for the first time.
The NDIS has been transitioning to full-scheme according to phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

### Summary

- **52,249** Participants have now been supported by the NDIS in Queensland, including children in the ECEI program.
- **6,772** Initial plans approved in 2018-19 Q4, excluding children in the ECEI program (representing 16% growth since last quarter).
- **2,390** Children are being supported in the ECEI program, with 731 additional referrals to the ECEI Gateway confirmed in 2018-19 Q4.
- **14,925** People have now received support for the first time.

- **57%** of transition to date bilateral estimate met (1 July 2016 - 30 June 2019).
- **57%** of scheme to date bilateral estimate met (1 April 2016 - 30 June 2019).
2018-19 Q4

Of the 4,707 participants deemed 'eligible' this quarter 64% were 'New' participants (i.e. had not transitioned from an existing State/Territory or Commonwealth program).

Of the 6,772 plan approvals this quarter, 45% had transitioned from an existing State/Territory program, 78% entered with a permanent disability and 766 were previously confirmed as ECEI as at 2018-19 Q3.
Plan approval numbers have increased from 43,087 at the end of 2018-19 Q3 to 49,859 by the end of 2018-19 Q4, an increase of 6,772 approvals.

At the end of the quarter, 2,390 children are being supported in the ECEI gateway. Of these, 1,659 were previously confirmed as ECEI at 31 March 2019 and an additional 731 children entered the gateway this quarter.

Overall, 846 participants with approved plans have exited the Scheme, resulting in 51,403 active participants (including ECEI) as at 30 June 2019.

There were 8,650 plan reviews this quarter. This figure relates to all participants who have entered the scheme.
Cumulative Position

At the end of 2018-19 Q4, the cumulative total number of participants that have received support was 52,249 (including 2,390 children supported through the ECEI gateway). Of these, 29,612 transitioned from an existing State/Territory program, 5,322 transitioned from an existing Commonwealth program and 14,925 participants have received support for the first time.

Overall, since 1 July 2013, there have been 65,821 people with access decisions.

Cumulative position reporting is inclusive of trial participants for the reported period and represents participants who have or have had an approved plan.
Participant Profiles by Age Group

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by age group.

Around 27% of participants entering in this quarter are aged 0 to 6 years. This is higher compared to 10% in prior quarters.

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.
PART 1 - Participants and Planning

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by disability group.

33% of participants entering this quarter have a primary disability group of Autism, compared to 28% in previous quarters. The large increase was mainly driven by the increase in participants aged 0 to 6 years entering in this quarter.

18% of participants entering this quarter have a primary disability group of Intellectual Disability, compared to 26% in previous quarters.

Note 1: Of the 1,229 active participants identified as having an intellectual disability, 189 (15%) have Down syndrome.
Note 2: Since 2017-18 Q1 Developmental Delay and Global Developmental Delay have been reported separately to the Intellectual Disability group.
Participant Profiles by Level of Function

These bar charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by level of function.

For participants with a plan approval in this quarter:
- 27% of active participants had a relatively high level of function
- 47% of active participants had a relatively moderate level of function
- 25% had a relatively low level of function

These relativities are within the NDIS participant population, and not comparable to the general population.
These charts show the demographic profile of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019, by gender.

The majority of participants are males.
PART 1 - Participants and Planning

Participant Profiles

These bar charts show other demographic profiles of active participants with a plan approved in 2018-19 Q4, compared with plan approvals as at 31 March 2019.

Of the participants with a plan approved in 2018-19 Q4:

- 8.8% were Aboriginal or Torres Strait Islander, compared with 8.1% in previous periods combined.

- 2.7% were young people in residential aged care, compared with 1.8% in previous periods combined.

- 5.7% were culturally and linguistically diverse, compared with 4.9% in previous periods combined.

Aboriginal & Torres Strait Islander status

- Aboriginal and Torres Strait Islander: 594 participants (8.8%)
- Not Aboriginal and Torres Strait Islander: 5,799 participants (87.2%)
- Not Stated: 369 participants (5.5%)

Young people in residential aged care status

- Young people in residential aged care: 185 participants (1.8%)
- Not young people in residential aged care: 6,577 participants (98.2%)

Culturally and linguistically diverse status

- Culturally and linguistically diverse: 384 participants (5.7%)
- Not culturally and linguistically diverse: 6,372 participants (94.2%)
- Not stated: 6 participants (0.1%)
Plan Management  
Support Coordination

The proportion of participants electing to fully or partly self-manage their plan was higher in 2018-19 Q4 at 29%, compared with 27% in previous quarters combined.

41% of participants who have had a plan approved in 2018-19 Q4 have support coordination in their plan, compared to 38% in previous quarters combined.

Support Coordination

2018-19 Q4

Prior quarters

15.0%  11.7%  30.5%  42.8%

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%

2018-19 Q4

16.2%  13.3%  34.7%  35.8%

0% 10% 20% 30% 40% 50% 60% 70% 80% 90% 100%
Plan Activation

Plan activation refers to the amount of time between a participant’s initial plan being approved, and the date the participant first receives support. In-kind supports are included.

The percentage of participants who activated plans within 90 days of initial plan approval was:
- 86% of participants entering in 2018-19 Q2
- 86% of participants entering in previous quarters combined

Plan activation figures are approximations based on payment data. As there is a lag between when the support is provided to a participant, and the payment being made, these statistics are a conservative estimate; it is likely plan activation is faster than presented.

Note: Participants with initial plans approved after the end of 2018-19 Q2 have been excluded from the charts. They are relatively new and it is too early to examine their durations to activation.
This information on participant outcomes has been collected from 99.7% of participants who received their initial plan since 1 July 2016 (when they entered the scheme).

- 63% of participants aged 0 to before school are able to make friends outside of family/carers, compared to 60% of participants from school age to 14.
- 48% of participants aged 0 to before school are engaged in age appropriate community, cultural or religious activities, compared to 31% - 40% for other age groups.
- 57% of participants from school age to 14 attend school in a mainstream class, compared to 23% of participants aged 15 to 24.
- 19% of participants aged 25 and over have a paid job, compared to 18% of participants aged 15 to 24.
- 62% of participants aged 25 and over choose what they do every day, compared to 40% of participants aged 15 to 24.
The percentage of participants’ families/carers when they entered the Scheme (baseline indicators):

- working in a paid job was highest for participants aged 15 to 24 (47%)
- able to advocate for their child/family member was highest for participants aged 0 to 14 (81%)
- who have friends and family they can see as often as they like was highest for participants aged 25 and over (45%)
- who feel in control selecting services was highest for participants aged 15 to 24 (45%)
- who support/plan for their family member through life stage transitions was highest for participants aged 0 to 14 (87%)
Has the NDIS helped? Participants

This data reflects participants’ perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question ‘Has the NDIS helped?’ to individuals who entered the Scheme between 1 July 2016 and 30 June 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

Participant perceptions in general improve from year one to year two of participation in the NDIS, with the exception of the Work domain. The greatest improvements were demonstrated in the experience of individuals in the ‘0 to before school’ bracket, especially regarding social, community and civic participation.
Has the NDIS helped?
Family/Carers

This data reflects families and carers’ perceptions on whether engagement with the NDIS has helped them.

The NDIA asked the question ‘Has the NDIS helped?’ to families and carers of individuals who entered the Scheme between 1 July 2016 and 30 June 2017, after their first year participating in the Scheme and again at the end of their second year of the Scheme.

In general, family and carers’ perception of whether the NDIS has helped improved from year one to year two.
PART 1 - Participants and Planning

Participants in Work

The NDIA is acutely aware of the benefits that employment brings to participants and tracks employment outcomes to see whether the NDIS has helped participants to find paid work.

Baseline measures on employment are collected as a participant enters the Scheme, after their first year and again at the end of their second year of the Scheme. This data relates to participants who entered the Scheme between 1 July 2016 and 30 June 2017.

The percentage of participants in paid work increased this quarter from 17% to 25% for those aged 15 to 24 and increased from 20% baseline to 21% for those aged 25 and over. Overall, the percentage of participants in employment increased from 20% to 22%.
Participants involved in community and social activities

The number of participants engaging in community and social activities is one of the key measures for ensuring quality experiences and outcomes for participants.

For participants who entered the Scheme between 1 July 2016 and 30 June 2017, levels of engagement in community and social activity are being tracked to see whether the NDIS has helped them to increase their participation.

Across all age groups, there was considerable increase in the percentage of participants engaged in community and social activities this quarter. The growth was most prevalent for the 15 to 24 age group, which saw an increase from 33% to 46%.
90% of participants rated their satisfaction with the Agency’s planning process as either good or very good in the current quarter. This is consistent with the previous quarter.
A new participant satisfaction survey has been developed to better record the experience of NDIS participants and their families and carers at different stages of the participant pathway.

It began roll-out on 1 September 2018 and will become the primary tool for analysing participant experience. The new survey is designed to gather data at the four primary stages of the participant pathway:

- Access
- Pre-planning
- Planning
- Plan Review

Generally, there have been improvements in participant satisfaction at each stage of the pathway in this quarter, except for the Planning stage. There is still work required to improve participant understanding of the NDIS process and what happens next for individuals at each stage of the process.
Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

Of the $3.4 billion that has been committed in participant plans, $2.0 billion has been paid to date.
Summary

This section presents information on the amount committed in plans and payments to service providers and participants.

Key Statistics

SUMMARY OF PAYMENTS FOR SUPPORTS PROVIDED BY FINANCIAL YEAR SINCE THE NDIS WAS LAUNCHED:
- 2015-16: $0.3M
- 2016-17: $111.3M
- 2017-18: $496.2M
- 2018-19: $1,403.1M.

PERCENTAGE OF COMMITTED SUPPORTS UTILISATION BY FINANCIAL YEAR:
- 2015-16: 32%
- 2016-17: 56%
- 2017-18: 63%

UTILISATION OF COMMITTED SUPPORTS IN 2018-19 IS STILL EMERGING.
Committed Supports and Payments

This data shows the committed supports by the year they are expected to be provided, in comparison to the committed supports that have been paid.

Of the $3.4 billion that has been committed in participant plans, $2.0 billion has been paid to date.

Summary of committed supports paid in financial years since the NDIS launched:
2015-16: $0.3m
2016-17: $111.3m
2017-18: $496.2m
2018-19: $1,403.1m

</tbody>
</table>
This quarter, the change in the distribution of average annualised committed supports was driven by the indexation of plans to reflect 2019-20 price changes which was applied on 30 June 2019. This is the case whether Supported Independent Living (SIL) supports are included or excluded in the figures.
This quarter, supports have increased at each age group compared with prior quarters. This increase was driven by indexation of plans to reflect 2019-20 price changes which was applied on 30 June 2019.

Average annualised committed supports increase steeply between participants 0-6 through to age 34, stabilising to age 55 and reducing in participants of older years.

Note: The age eligibility requirements for the NDIS are based on the age as at the access request date. Participants with their initial plan approved aged 65+ have turned 65 since their access request was received.
Committed Supports by Disability Group

The highest average annualised committed supports are for participants with Spinal Cord Injury, Acquired Brain Injury and Cerebral Palsy.
Committed Supports by Level of Function

The average annualised committed supports generally increase among participants with higher needs.

Note: High, medium and low function is relative within the NDIS population and not comparable to the general population.
This data demonstrates the utilisation of committed supports by the year they were expected to be provided as at 31 March 2019 and 30 June 2019.

As there is a lag between when support is provided and when it is paid, the utilisation in 2018-19 will increase.

Experience shows that participants utilise less of their first plan, compared with their second and subsequent plans, as it takes time to familiarise with the NDIS and decide which supports to use.

Utilisation has increased in each of the first three support years, and will continue to increase for 2018-19 from its current level. This is to be expected given that more participants are now on a second or subsequent plan.
Providers and Markets

The provider network grows in scale and diversity, increasing participants’ access to high quality services.

There were a total of 5,964 providers at 30 June 2019, representing a 10% increase on last quarter. Of these, 45% were active.
Summary

This section contains information on registered service providers and the market, with key provider and market indicators presented.

Provider registration

• To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA.
• Providers register with the NDIA by submitting a registration request, indicating the types of support they are accredited to provide.

How providers interact with participants

• NDIS participants have the flexibility to choose the providers who support them.
• Providers are paid for disability supports and services provided to the participants.

Therapeutic supports has the highest number of approved service providers, followed by household tasks and assistance with travel/transport arrangements.
As at 30 June 2019, there were 5,964 registered service providers, of which 2,421 were individual/sole trader operated businesses and 3,543 were companies or organisations.

41% of approved service providers are individuals/sole traders.
The number of approved service providers increased by 10% from 5,405 to 5,964 in the quarter.
As at 30 June 2019, 45% of providers were active and 55% were inactive.

Of the total providers, 932 began delivering new supports in the quarter.
The number of approved providers has increased for most registration groups over the quarter.

The registration groups with the largest numbers of approved providers continue to grow:
- **Therapeutic Supports**: from 1,816 to 1,991 (10% increase)
- **Household Tasks**: from 1,407 to 1,599 (14% increase)
- **Assistance with travel/transport arrangements**: from 1,012 to 1,115 (10% increase)
- **Assistance products for personal care and safety**: from 993 to 1,108 (12% increase)
- **Early Intervention supports for early childhood**: from 956 to 1,027 (7% increase)
The number of active providers in each registration group has increased for most registration groups over the quarter.

The registration groups with the largest numbers of active providers continue to grow:
- Therapeutic Supports: from 952 to 1,114 (17% increase)
- Household tasks: from 479 to 583 (22% increase)
- Assistance products for personal care and safety: from 366 to 451 (23% increase)
- Participation in community, social and civic activities: from 370 to 406 (10% increase)
- Daily Personal Activities: from 339 to 386 (14% increase)
Market share of top providers

25% of service providers received 80-95% of the dollars paid for major registration groups.
Information, Linkages and Capacity Building was covered in the national version of the COAG Quarterly Performance Report.
Mainstream Interface

The proportion of participants entering in the current quarter and accessing mainstream services is higher compared to prior quarters.
Mainstream Interface

Of the total number of active participants with a plan approved in 2018-19 Q4, 93% access mainstream services, an increase from prior quarters. Participants are accessing mainstream services predominantly for health and wellbeing, daily activities and lifelong learning.

% of active participants accessing mainstream supports
