6. Participants and carers outcomes and support packages by participant age group

Baseline measures (i.e. on scheme entry) are collected on participants from the short-form outcomes framework (SFOF) questionnaires during the transition period. Active participants with an initial plan approved during the period 1 July 2016 to 30 June 2019 are included.

6.1 Participants 0 to before school

- % of parents/carers with concurrent in- or more time
- % who say their child is able to tell them what he/she wants
- % of children who can make friends with (some) people outside the family
- % of children who participate in age-appropriate capacity, cultural or religious activities
- Of these, % who are welcomed or actively included

6.2 Description of key participant outcome domains

Outcome statements for children aged 0-6 years (or school entry):
1. Children gain functional, developmental and coping skills that are appropriate to their ability and circumstances / specialist services
2. Children show evidence of self-determination in their everyday lives
3. Children participate meaningfully in family life
4. Children participate meaningfully in community life

6.3 Family/carers of participants 0 to 14

Outcome statements for families/carers of children with disability aged 0-6 years:
1. Families know their rights and advocate effectively for their children
2. Families feel supported
3. Families are able to gain access to desired services, programs, and activities in their community
4. Families help their children develop and learn
5. Families enjoy health and wellbeing

6.4 Description of key carer outcome domains

Outcome statements for families/carers of children with disability aged 0-6 years:
1. Families know their rights and advocate effectively for their children
2. Families feel supported
3. Families are able to gain access to desired services, programs, and activities in their community
4. Families help their children develop and learn
5. Families enjoy health and wellbeing

6.5 Distribution of active participants with an approved plan by level of function for age 0-6 yrs

- Functional level 1-5: High function/low disability
- Functional level 6-10: Medium level function
- Functional level 11-15: Low level of function/high disability

6.6 Distribution of active participants with an approved plan by primary disability for age 0-6 yrs

- Primary disability

6.7 Distribution of active participants with an approved plan by annualised committed support band for age 0-6 yrs

- Support packages

6.8 Total annualised committed supports for active participants with an approved plan by support category for age 0-6 yrs

- Support category

---

**Participant characteristics**

6.8 Distribution of active participants with an approved plan by primary disability for age 0-6 yrs

- Primary disability

---

**Support packages**

6.8 Total annualised committed supports for active participants with an approved plan by support category for age 0-6 yrs

- Support category
6. Participants and carers outcomes and support packages by participant age group

6.9 Participants starting school age 7 to 14
- % of children developing functional, learning and coping skills appropriate to their ability and circumstances
- % who say their child is becoming more independent
- % of children who spend time with friends in a safe environment
- % of children who have a genuine say in decisions about themselves
- % of children attending school in a mainstream class
- % of children who can make friends with some people outside the family
- % who spend time after school and on weekends with friends or in mainstream programs
- Of these, % who are welcome or actively included

6.11 Family/carers of participants 0 to 14
- % receiving Carer Payment
- % receiving Carer Allowance
- % working a paid job
- % who say they and their partner are able to work as much as they want
- % who are able to advocate for their child
- % who have friends and family they see as often as they like
- % who feel very confident or somewhat confident in supporting their child’s development

6.13 Distribution of active participants with an approved plan by level of function for age 7 to 14 yrs
- High
- Medium
- Low

6.14 Distribution of active participants with an approved plan by primary disability for age 7 to 14 yrs

6.10 Description of key participant outcome domains
Outcome statements for children aged 7 (or school entry) - 14 years:
1. Children gain functional, developmental and coping skills that are appropriate to their ability and circumstances - specialist services
2. Children show evidence of self-determination in their everyday lives
3. Children participate meaningfully in family life
4. Children participate meaningfully in community life

6.12 Description of key carer outcome domains
Outcome statements for families / carers of children with disability aged 7-14 years:
1. Families know their rights and advocate effectively for their children
2. Families feel supported
3. Families are able to gain access to desired services, programs, and activities in their community
4. Families help their children develop and learn
5. Families enjoy health and wellbeing

6.16 Total annualised committed supports for active participants with an approved plan by support category for age 7 to 14 yrs
6. Participants and carers outcomes and support packages by participant age group

6.17 Participants 15 to 24 (selected indicators)

Baseline outcomes - participants

- % who are happy with the level of independence/control they have
- % who choose what they do each day
- % who have the opportunity to participate in a self-advocacy group meeting
- % who feel safe or very safe in their home
- % who rate their health as good, very good or excellent
- % who did not have any difficulties accessing health services
- % who currently attend or previously attended school in a mainstream class
- % who have a paid job
- % who volunteer

Baseline outcomes - family

- % receiving Carer Payment
- % receiving Carer Allowance
- % working in a paid job
- % who volunteer
- % who have friends and family they see as often as they like
- % who know what their family can do to enable their family member with disability to become as independent as possible
- % who rate their health as good, very good or excellent

6.18 Description of key participant outcome domains

The adult framework consists of 8 participant domains:
1. Choice and control
2. Daily living activities
3. Relationships
4. Home
5. Health and wellbeing
6. Social, community and civic participation

6.19 Family/carers of participants 15 to 24 (selected indicators)

- % receiving Carer Payment
- % receiving Carer Allowance
- % working in a paid job
- % who volunteer
- % who have friends and family they see as often as they like
- % who know what their family can do to enable their family member with disability to become as independent as possible
- % who rate their health as good, very good or excellent

6.20 Description of key carer outcome domains

Outcome statements for families/carers of participants aged 15-24 years:
1. Families know their rights and advocate effectively for their young person with disability
2. Families have the support they need to care
3. Families are able to gain access to desired services, programs, and activities in their community
4. Families help their young person become independent
5. Families enjoy health and wellbeing

6.21 Distribution of active participants with an approved plan by level of function for age 15 to 24 yrs

- Level of function:
  - Function level 1-5: High function/low disability
  - Function level 6-10: Medium level function
  - Function level 11-15: Low level of function/high disability

6.22 Distribution of active participants with an approved plan by primary disability for age 15 to 24 yrs

- Primary disability:
  - Cognitive
  - Intellectual
  - Psychiatric
  - Learning
  - Sensory
  - Motor
  - Developmental
  - Moderate
  - Severe
  - Proportion of participants

6.23 Distribution of active participants with an approved plan by annualised committed support band for age 15 to 24 yrs

- Annualised committed support band:
  - Core - Daily Activities
  - Core - Social and Civic
  - Capacity Building - Daily Activities
  - Capacity Building - Employment
  - Capacity Building - Support Coordination
  - Core - Transport
  - Capacity Building - Social and Civic
  - Capital - Assistive Technology
  - Capital - Home Modifications
  - Core - Consumables
  - Capacity Building - Relationships
  - Capacity Building - Choice Control
  - Capacity Building - Health and Wellbeing
  - Capacity Building - Home Living
  - Capacity Building - Lifelong Learning

6.24 Total annualised committed supports for active participants with an approved plan by support category for age 15 to 24 yrs
6. Participants and carers outcomes and support packages by participant age group

6.26 Description of key participant outcome domains

The adult framework consists of 8 participant domains:
1. Choice and control
2. Daily activities
3. Relationships
4. Home
5. Health and wellbeing
6. Lifelong learning
7. Work
8. Social, community and civic participation

6.28 Description of key carer outcome domains

The adult framework consists of 5 family / carer domains:
1. Families know their rights and advocate effectively for their family member with disability
2. Families have the support they need to care
3. Families are able to gain access to desired services, programs, and activities in their community
4. Families have succession plans
5. Families enjoy health and wellbeing
