For Outcomes measures as at 30 June 2020. Outcomes measures represent the weighted average for participants aged 15 and over, and compare the responses at the participants' second plan review, with the result at scheme entry (which constitutes the Baseline). These results only include participants who had their first plan approved between 1 July 2017 and 30 June 2018 and have had a second plan review to date. The following three indicators are outcomes measures.

- The percentage of participants who choose who supports them increased from 52% at Baseline to 53% at the second review.

The following results indicate the percentage of participants rating their overall experience as 'Very Good' or 'Good' by pathway stage in the current versus previous quarter. Participant satisfaction results for 2019-20 quarter 3 have been restated using data as at 30 June 2020 due to retrospective changes in the underlying data.
