

# Transcript for Tasmania Quarterly Performance Dashboard as at 31 December 2020

This dashboard provides a quarterly comparison of key statistics relating to active participants and their experience in the Scheme. It also includes market characteristics, key outcomes and participant satisfaction results.

## Section 1 Participants and Planning

A table displays the following key statistics on the Tasmania participant pathway experience as at 31 December 2020 and 30 September 2020.

- The number of active participants, excluding Early Childhood Early Intervention, also known as E-C-E-I, increased from 9,358 as at 30 September 2020 to 9,868 as at 31 December 2020.
- The number of children in the E-C-E-I gateway receiving initial supports decreased from 244 as at 30 September 2020 to 241 as at 31 December 2020.
- The number of children in the E-C-E-I gateway not receiving initial supports decreased from 19 as at 30 September 2020 to 15 as at 31 December 2020.
- The proportion of participants fully or partially self managing their plan decreased from 26% as at 30 September 2020 to 25% as at 31 December 2020.
- The proportion of plans activated within 90 days remained stable at 84%, from 30 September 2020 to 31 December 2020. Trial participants are excluded. Participants with initial plans approved after the end of 2019-20 quarter 4 have been excluded from the analysis. They are relatively new and it is too early to examine their durations to activation.
- The number of participant plan reviews completed increased from 1,789 in the quarter ending 30 September 2020 to 2,202 in the quarter ending 31 December 2020. Plans less than 30 days in duration have been excluded. The number of plan reviews during September 2020 quarter have been restated at 31 December 2020 due to retrospective changes in underlying data.
- The number of access decisions in progress decreased from 247 as at 30 September 2020 to 231 as at 31 December 2020.

The following statistics concern Participant Service Guarantee (PSG) metrics and the proportion which met target. The results for the PSG timeframes shown are based on preliminary calculations and the methodology used to determine them may be refined further. The measurement of the remaining PSG timeframes is under development.

- PSG number 2: The proportion of access decisions made or further information requested within 21 days of access requests remained stable at 100%, from the quarter ending 30 September 2020 to 31 December 2020.
- PSG number 4: The proportion of access decisions made within 14 days of final information being provided decreased from 100% in the quarter ending 30 September 2020 to 98% in the quarter ending 31 December 2020.
- PSG number 5: The proportion of cases where facilitating the preparation of a plan commenced within 21 days of an access decision being made decreased from 87% in the quarter ending 30 September 2020 to 83% in the quarter ending 31 December 2020.

- PSG number 6: The proportion of first plans that were approved within 90 days after access decisions were made, for participants aged 7 or above, increased from 96% in the quarter ending 30 September 2020 to 97% in the quarter ending 31 December 2020.
- PSG number 7: The proportion of first plans that were approved within 70 days after access decisions were made, for participants aged 0 to 6, increased from 97% in the quarter ending 30 September 2020 to 98% in the quarter ending 31 December 2020.
- PSG number 11: The proportion of cases where facilitating a scheduled plan review commenced at least 56 days prior to the scheduled review date decreased from 77% in the quarter ending 30 September 2020 to 74% in the quarter ending 31 December 2020. Despite current underachievement of this scheduled review target, the NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.
- PSG number 12: The proportion of cases where the decision to undertake Participant Requested Reviews (PRRs) was made within 21 days remained stable at 100%, from the quarter ending 30 September 2020 to 31 December 2020.
- PSG number 13: The proportion of Participant Requested Reviews (PRRs) that were completed within 42 days after the decision was made decreased from 73% in the quarter ending 30 September 2020 to 68% in the quarter ending 31 December 2020.
- PSG number 17: The proportion of Reviews of Reviewable Decisions (RoRDs) that were completed within 90 days after the request was received decreased from 99% in the quarter ending 30 September 2020 to 97% in the quarter ending 31 December 2020.

A chart displays the change in active participants between 30 September 2020 and 31 December 2020.

There were 9,358 active participants (excluding E-C-E-I) as at 30 September 2020. During 2020-21 quarter 2, there were 541 plan approvals and a negative net movement of 31 participants across jurisdictions and Scheme exits. This resulted in 9,868 active participants (excluding E-C-E-I) as at 31 December 2020. Additionally, there were 241 children in the E-C-E-I gateway receiving initial supports as at 31 December 2020. When including E-C-E-I, the total number of active participants (including E-C-E-I) as at 31 December 2020 was 10,109.

The following key statistics summarise the Tasmania performance as at 31 December 2020.

- 10,350 participants have entered the Scheme (including E-C-E-I) since July 2013 and currently reside in Tasmania. 10,109 of these continue to be active.
- 5,539 active participants are receiving supports for the first time.
- In the current quarter, 541 participants have entered the Scheme and there are 241 children with initial supports in the E-C-E-I gateway at the end of December 2020.
- 2,202 plans were reviewed this quarter.
- 701 access decisions have been made in the quarter, 546 of which met access and are still active as at 31 December 2020.
- 56 (10.4%) of the new active participants this quarter identified as Indigenous, taking the total number of Indigenous participants in TAS to 829 (8.4%).

- 17 (3.1%) of the new active participants this quarter are Culturally and Linguistically Diverse, also known as CALD, taking the total number of CALD participants in TAS to 306 (3.1%).

## Section 2 Provider and Market Metrics

A table displays the following key statistics on Tasmania provider and market metrics as at 31 December 2020 and at 30 September 2020.

- The total number of active providers (with at least one claim ever) increased from 1,092 as at 30 September 2020 to 1,143 as at 31 December 2020. Active providers refer to those who have received payment for supporting Agency-managed participants.
- The total number of active providers in last quarter increased from 460 as at 30 September 2020 to 477 as at 31 December 2020. Active providers refer to those who have received payment for supporting Agency-managed participants.
- Utilisation (which is calculated as a 6 month rolling average with a 3 month lag) decreased from 72% as at 30 September 2020 to 71% as at 31 December 2020.
- Plan utilisation by service district. The proportion of service districts that are more than 10 percentage points below the benchmark remained stable at 0%, from 30 September 2020 to 31 December 2020. The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants had been in the Scheme.
- Market concentration. The proportion of service districts where more than 85% of payments for supports go to the top 10 providers remained stable at 0%, from 30 September 2020 to 31 December 2020.
- The proportion of payments paid within 5 days (portal) decreased from 99.9% as at 30 September 2020 to 99.8% as at 31 December 2020.
- The growth in annualised plan budget decreased from 6.6% as at 30 September 2020 to 1.3% as at 31 December 2020. The rate of growth for the September 2020 quarter has been restated due to retrospective changes in the underlying data.

The following comments are made regarding the Tasmania provider and market metrics as at 31 December 2020.

- The number of active providers at the end of December is 1,143, growing by 5% in the quarter.
- Utilisation was 71% in the six months from 1 April 2020 to 30 September 2020, with no service districts in Tasmania more than 10 percentage points below the adjusted national benchmark.
- None of the service districts has the top 10 providers providing more than 85% of supports by value.

A chart displays the Tasmania distribution of service districts by plan utilisation as at 31 December 2020. The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants had been in the Scheme.

No service districts are more than 10 percentage points below the adjusted national benchmark.

No service districts are between 5 and 10 percentage points below the adjusted national benchmark.

4 out of 4 (100%) service districts are within 5 percentage points of the adjusted national benchmark.

No service districts are between 5 and 10 percentage points above the adjusted national benchmark.

No service districts are more than 10 percentage points above the adjusted national benchmark.

Service districts below benchmark:

- Tasmania North West: 70% versus 71% benchmark.
- Tasmania North: 68% versus 69% benchmark.

A chart displays the Tasmania distribution of service districts by market concentration as at 31 December 2020.

No service districts have more than 95% of payments going to the 10 largest providers.

No service districts have between 90% and 95% of payments going to the 10 largest providers.

No service districts have between 85% and 90% of payments going to the 10 largest providers.

2 out of 4 (50%) service districts have between 65% and 85% of payments going to the 10 largest providers.

2 out of 4 (50%) service districts have between 45% and 65% of payments going to the 10 largest providers.

No service districts have less than 45% of payments going to the 10 largest providers.

Service district closest to benchmark:

- Tasmania North West: 72% versus 85% benchmark.

### Section 3 Service District Summaries

A chart displays the active participants by service district as at 31 December 2020.

A chart displays the average annualised committed supports and utilisation by service district.

The following comments are made regarding the Tasmania experience at service district level as at 31 December 2020.

- Tasmania North has the highest number of active participants (2,810), while Tasmania South East has the lowest (2,100).
- Tasmania South West has the highest average annualised committed supports. This is partly driven by a higher proportion of SIL participants compared with other Tasmanian service districts.
- Tasmania South West has the highest utilisation at 75%, whilst Tasmania North has the lowest utilisation (68%).
- Only utilisation of committed supports from 1 April 2020 to 30 September 2020 is shown, as experience in the most recent 3 months is still emerging.

### Section 4 Participant Outcomes and Satisfaction

A table displays the following key statistics on Tasmania participant outcomes and satisfaction.

For Participant and Scheme Outcome metrics from the Corporate Plan as at 31 December 2020. These Outcomes results only include participants who have been in the Scheme for at least two years. Trial participants are excluded. The measures compare the responses at the participants' most recent plan review, with the result at Scheme entry (which constitutes the Baseline). The following three indicators are outcomes measures.

- The percentage - Participant employment rate - ages 15 and over increased from 15% at Baseline to 17% at the latest review.
- The percentage - Participant social and community engagement rate - ages 15 and over increased from 28% at Baseline to 33% at the latest review.
- The percentage - Parent and carer employment rate - all ages increased from 41% at Baseline to 44% at the latest review.

The following results indicate the percentage of participants rating their overall experience as 'Very Good' or 'Good' by pathway stage in the current quarter. Since October 2020, the participant satisfaction survey has been administered by an independent third party, Australian Healthcare Associates. This change has resulted in a 'break' in the time series, meaning the previous quarterly results do not compare well with this quarter's result. Hence, this comparison is not included here.

- There is insufficient data to report on the participant satisfaction survey results relating to the Access stage for 2020-21 quarter 2.
- The percentage for the 'Pre-planning' stage was 89% in the quarter ending 31 December 2020.
- The percentage for the 'Planning' stage was 90% in the quarter ending 31 December 2020.
- The percentage for the 'Plan review' stage was 80% in the quarter ending 31 December 2020.
