National | 31 March 2021 | Quarterly Performance Dashboard

Participants and Planning

| Participant Pathway Experience | As at 31 Mar | As at 31 Dec |
|--|--------------|--------------|
| Active participants (excluding ECEI) | 449,998 | 432,649 |
| Children in the ECEI gateway receiving Initial Supports | 10,840 | 9,560 |
| Children in the ECEI gateway not receiving Initial Supports | 530 | 534 |
| Proportion of participants fully or partially self managing their plan | 31% | 31% |
| Proportion of plans activated within 90 days* | 86% | 86% |
| Number of participant plan reviews completed in quarter** | 94,104 | 90,634 |
| Access decisions in progress | 9,453 | 9,195 |
| Children benefiting from the Scheme no longer needing supports (% p.a.)*** | 3.9% | 3.6% |
| Participant Service Guarantee (PSG) - proportion which met target in quarter | | |
| 2: Access decision made or further information requested within 21 days of an access request | 100% | 100% |
| 4: Access decision made within 14 days of final information being provided | 98% | 98% |
| 5: Commence facilitating the preparation of a plan, within 21 days of an access decision being made**** | 79% | 78% |
| 6: First plan approved after access decision has been made for participants aged 7 or above, within 56 days***** | 79% | 92% |
| 7: First plan approved after access decision has been made for participants aged 0 to 6, within 90 days | 96% | 98% |
| 11: Commence facilitating a scheduled plan review 56 days prior to the scheduled review date**** | 25% | 56% |
| 12: Decision made to undertake Participant Requested Reviews (PRRs) within 21 days | 100% | 100% |
| 13: Participant Requested Reviews (PRRs) completed after decision made within 42 days | 67% | 72% |
| 17: Reviews of Reviewable Decisions (RoRDs) completed after request is received within 90 days | 91% | 98% |

^{*} Trial participants are excluded. Participants with initial plans approved after the end of 2020-21 Q1 have been excluded. They are relatively new and it is too early to examine their durations to activation.

^{*****} The target timeframe for PSG 6 has been reduced from 70 to 56 days in early 2021. The result for the March 2021 quarter is based on the 56 day timeframe while the result for the December 2020 quarter is based on the 70 day timeframe.

Performance summary:

- 478,106 participants have entered the Scheme (incl ECEI) since July 2013. 460,838 of these continue to be active.
- 229,151 active participants are receiving supports for the first time.
- In the current quarter, 19,169 participants have entered the Scheme and there are 10,840 children with initial supports in the ECEI gateway at the end of March 2021.
- 94,104 plans have been reviewed this guarter.
- 26,297 access decisions have been made in the quarter, 19,383 of which met access and are still active as at 31 March 2021.
- 1,701 (8.9%) of the new active participants this quarter identified as Indigenous, taking the total number of Indigenous participants nationally to 30,763 (6.8%).
- 2,000 (10.4%) of the new active participants this quarter are Culturally and Linguistically Diverse (CALD), taking the total number of CALD participants nationally to 42,265 (9.4%).

^{**} Plans less than 31 days in duration have been excluded. The number of plan reviews during the December 2020 quarter have been restated at 31 March 2021 due to retrospective changes in underlying data.

^{***} This is an annualised rate of exits from the Scheme by participants aged 0 to 14 and includes exits from the ECEI Gateway (that are not Access Met). The rate for the December 2020 quarter has been restated due to retrospective changes in the underlying data.

^{****} The logic used to measure these PSG timeframes has changed based on the use of new interactions in the CRM system. The result for PSG 11 for the March quarter uses the new logic whereas the results for PSG 5 for both quarters use the new logic. Despite current underachievement of PSG 11 regarding facilitating scheduled reviews, the NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.

Provider and Market Metrics

| Market supply and participant costs | As at 31 Mar | As at 31 Dec |
|---|--------------|--------------|
| Total number of active providers (with at least one claim ever)* | 16,076 | 15,708 |
| Total number of active providers in last quarter* | 9,017 | 9,142 |
| Utilisation (6 month rolling average with 3 month lag) (%) | 68% | 67% |
| Plan utilisation by service district (% of service districts that are more than 10 percentage points below the benchmark)** | 6% | 10% |
| Market concentration (% of service districts where more than 85% of payments for supports go to the top 10 providers) | 9% | 9% |
| Payments paid within 5 days (portal) (%) | 99.8% | 99.8% |
| Growth in annualised plan budget (current quarter reviews %)*** | 1.4% | 2.3% |

^{*} Active providers refer to those who have received payment for supporting Agency-managed participants.

- The number of active providers at the end of March is 16,076, growing by 2% in the quarter.
- Utilisation was 68% from 1 July 2020 to 31 December 2020, with 6% of service districts in Australia more than 10 percentage points below the adjusted national benchmark.
- In 9% of service districts, the top 10 providers provide more than 85% of payments.

Distribution of service districts by plan utilisation** Distribution of service districts by market concentration Service districts more than 10% below benchmark: Service districts more than 5% above - WA Kimberley-Pilbara: 45% vs 61% benchmark More than 10 percentage points below the More than 95% of payments going to the 10 benchmark: 5 (6%) - NT East Arnhem: 48% vs 63% benchmark adjusted national benchmark largest providers - WA Midwest-Gascovne: 95% vs 85% - SA Eyre and Western: 53% vs 65% benchmark benchmark - NT Darwin Remote: 46% vs 57% benchmark - WA Goldfields-Esperance: 91% vs Between 90% and 95% of payments going - NT Barkly: 61% vs 72% benchmark 4 (5%) Between 5 and 10 percentage points below 85% benchmark to the 10 largest providers 15 (19%) the adjusted national benchmark - WA Great Southern: 90% vs 85% benchmark Between 85% and 90% of payments going - SA Far North (SA): 90% vs 85% 3 (4%) to the 10 largest providers benchmark Within 5 percentage points of the adjusted 56 (70%) national benchmark Between 65% and 85% of payments going 23 (29%) to the 10 largest providers Between 5 and 10 percentage points above 4 (5%) the adjusted national benchmark Between 45% and 65% of payments going 31 (39%) to the 10 largest providers More than 10 percentage points above the Less than 45% of payments going to the 10 adjusted national benchmark 19 (24%) largest providers 40% 10% 30% 40% 20% 60% 80% 100% 20% 50%

^{**} The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

^{***} The rate of growth for the December 2020 quarter has been restated due to retrospective changes in the underlying data.

Summaries by State/Territory

^{*}There are 10 active participants at 31 March 2021 with Missing State/Territory information, these participants are not shown in the charts above.

- NSW has the highest number of active participants (140,221).
- There are 37 active participants who reside in Other Territories (OT) including Norfolk Island, Christmas Island and the Cocos (Keeling) Islands.
- NT has the highest average annualised committed supports. This is partially driven by a higher proportion of SIL participants compared with other States/Territories.
- The utilisation of SIL participants is consistently higher than for non-SIL participants across every State/Territory. On a national basis, utilisation was 85% for SIL participants and 62% for non-SIL participants.
- Duration in the Scheme is also a key driver of utilisation. Participants utilise a greater proportion of their subsequent plans when compared to their initial plan. Utilisation for participants on their first plan is 51% compared with 64% for those on their second plan and 72% for those on subsequent plans. (This excludes participants receiving in-kind supports as it is not possible to accurately separate in-kind payments and committed amounts between plans).
- Only utilisation of committed supports from 1 July 2020 to 31 December 2020 is shown, as experience in the most recent 3 months is still emerging.

Participant Outcomes and Satisfaction

Participant Outcomes and Satisfaction Participant and Scheme Outcome metrics from the Corporate Plan as at 31 March 2021* Latest Review Baseline - Participant employment rate - ages 15 and over 23% 22% - Participant social and community engagement rate - ages 15 and over 45% 36% - Parent and carer employment rate - all ages 48% 46% % of Participants rating their overall experience as Very Good or Good by pathway stage – current vs previous guarter** 2020-21 Q3 2020-21 Q2 - Access 76% 78% - Pre-planning 81% 77% - Planning 85% 85% - Plan review 76%

^{**} Participant satisfaction results for 2020-21 Q2 have been restated using data as at 31 March 2021 due to retrospective changes in the underlying data. These changes mainly arise from lags in data collection.

[^]Given the small size of the OT group, average annualised committed supports and utilisation for OT are not shown.

^{*} These Outcomes results only include participants who have been in the Scheme for at least two years. Trial participants are excluded. The measures compare the responses at the participants' most recent plan review, with the result at Scheme entry (Baseline).
