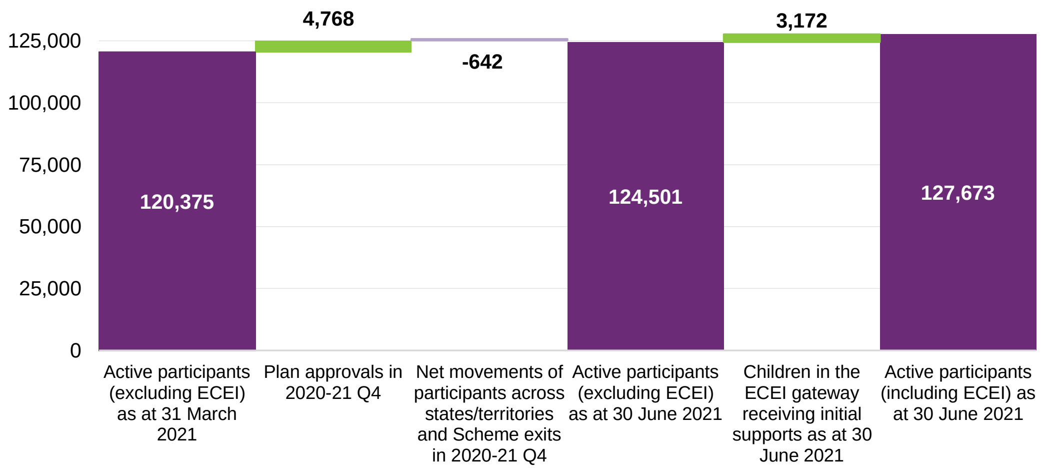
** Trial participants are excluded. Participants with initial plans approved after the end of 2020-21 Q2 have been excluded. They are relatively new and it is too early to examine their durations to activation.*
*** Plans less than 31 days in duration have been excluded. The number of plan reviews during the March 2021 quarter have been restated at 30 June 2021 due to retrospective changes in underlying data.*
****The results for the PSG have been restated at 30 June 2021 due to retrospective changes in underlying data.*
***** The logic used to measure these PSG timeframes has changed based on the use of new interactions in the CRM system. The result for PSG5 and PSG11 for the June and March 2021 quarters uses the new logic. Despite current underachievement of PSG 11 regarding facilitating scheduled reviews, the NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.*
****** The target timeframe for PSG 6 has been reduced from 70 to 56 days in early 2021. The result for the June and March 2021 quarters are based on the 56 day timeframe.*

Change in active participants between 31 Mar 2021 and 30 Jun 2021



Performance summary:

- 132,159 participants have entered the Scheme (incl ECEI) since July 2013. 127,673 of these continue to be active.
- 55,315 active participants are receiving supports for the first time.
- In the current quarter, 4,768 participants have entered the Scheme and there are 3,172 children with initial supports in the ECEI gateway at the end of June 2021.

Market concentration (% of service districts where more than 85% of payments for supports go to the top 10 providers)	0%	0%
Payments paid within 5 days (portal) (%)	99.7%	99.8%
Growth in annualised plan budget (current quarterly reviews %)***	1.9%	3.1%

** Active providers refer to those who have received payment for supporting Agency-managed participants.*

*** The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.*

**** The rate of growth for the March 2021 quarter has been restated due to retrospective changes in the underlying data.*

- The number of active providers at the end of June is 5,809, increasing by 4% in the quarter.
- Utilisation was 67% in the six months from 1 October 2020 to 31 March 2021, with no service districts in Victoria more than 10 percentage points below the adjusted national benchmark.
- None of the service districts have the top 10 providers providing more than 85% of payments.

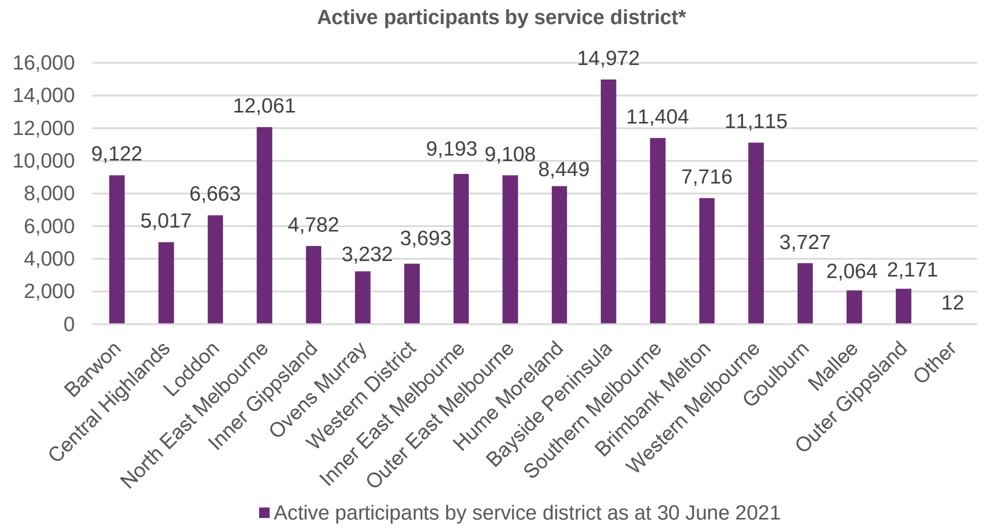
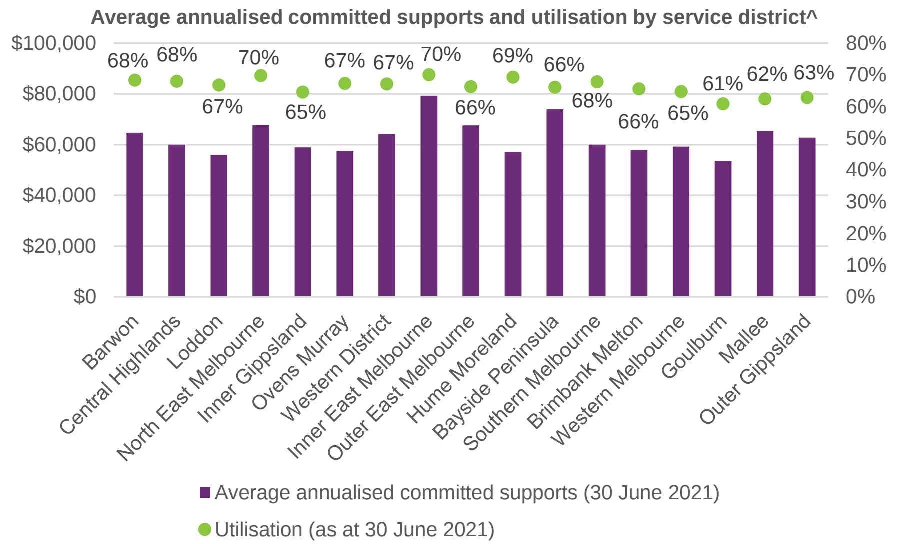
Service District Summaries





** 'Other' includes participants with service district information missing.*
^ Given the small size of the Other group, average annualised committed supports and utilisation for Other are not shown.

- Bayside Peninsula has the highest number of active participants (14,972), while Mallee has the lowest (2,064).
- Inner East Melbourne has the highest average annualised committed supports. This is partially driven by a high proportion of SIL participants compared with other VIC service districts.
- Inner East Melbourne and North East Melbourne have the highest utilisation at 70%, whilst Goulburn has the lowest utilisation at 61%.
- Only utilisation of committed supports from 1 October 2020 to 31 March 2021 is shown, as experience in the most recent 3 months is still emerging.
