* Trial participants are excluded. Participants with initial plans approved after the end of 2020-21 Q2 have been excluded. They are relatively new and it is too early to examine their durations to activation.

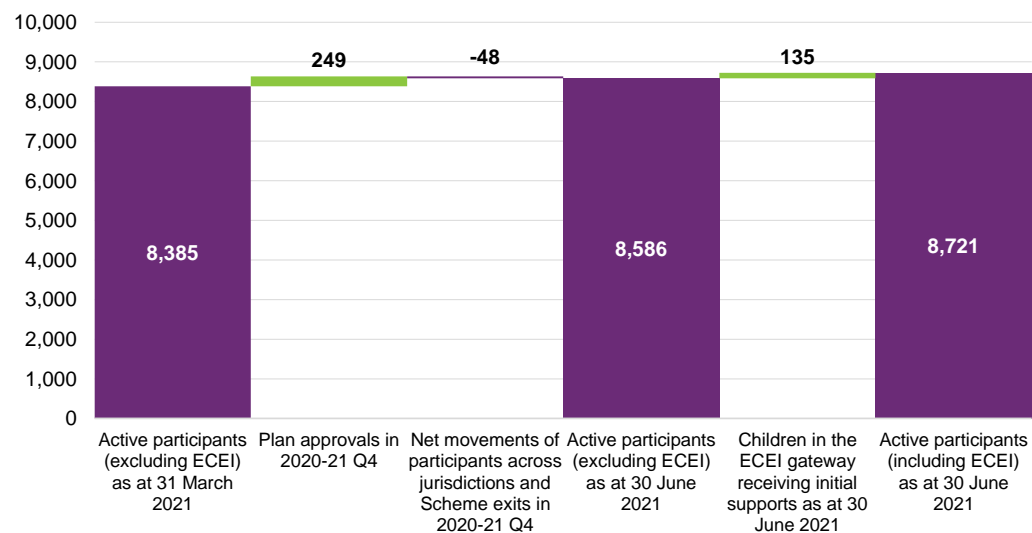

** Plans less than 31 days in duration have been excluded. The number of plan reviews during the March 2021 quarter have been restated at 30 June 2021 due to retrospective changes in underlying data.

***The results for the PSG have been restated at 30 June 2021 due to retrospective changes in underlying data.

**** The logic used to measure these PSG timeframes has changed based on the use of new interactions in the CRM system. The result for PSG5 and PSG11 for the June and March 2021 quarters uses the new logic. Despite current underachievement of PSG 11 regarding facilitating scheduled reviews, the NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.

***** The target timeframe for PSG 6 has been reduced from 70 to 56 days in early 2021. The result for the June and March 2021 quarters are based on the 56 day timeframe.

** The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

*** The rate of growth for the March 2021 quarter has been restated due to retrospective changes in the underlying data.

- The number of active providers at the end of June is 1,231, growing by 4% in the quarter. Part of this change is caused by the net movement of participants into Australian Capital Territory since 31 March.
- Utilisation has been 74% from 1 October 2020 to 31 March 2021, compared with an adjusted national benchmark of 73%. **
- Only utilisation of committed supports from 1 October 2020 to 31 March 2021 is shown, as experience in the most recent 3 months is still emerging.
- The top 10 providers provide 55% of payments, compared with the national benchmark of 85%.
