• The Participant Service Guarantee (PSGs) timeframes shown in the table above have not yet been legislated and continue to be developed.

¹ The results for the timeframes shown are based on preliminary calculations and the methodology used to determine the timeframes may change going forward. As a result, PSG results in the previous quarter may be restated due to logic changes. 'NA' means that PSG results cannot be measured.

² The NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date.

³ The June 2021 quarter results use a service guarantee timeframe of 42 days.

⁴ The June 2021 quarter results use a service guarantee timeframe of 90 days.

Distribution of service districts by plan utilisation ²

Distribution of service districts by market concentration

Service districts below benchmark:

- TAS North West: 74% vs 75% benchmark

Service districts closest to benchmark:

- TAS North: 69% vs 85% benchmark
- TAS North West: 69% vs 85% benchmark

¹ Active providers refer to those who have received payment for supporting Agency-managed participants.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

³ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).
