• The Participant Service Guarantee (PSGs) timeframes shown in the table above have not yet been legislated and continue to be developed.

¹ The results for the timeframes shown are based on preliminary calculations and the methodology used to determine the timeframes may change going forward. As a result, PSG results in the previous quarter may be restated due to logic changes. 'NA' means that PSG results cannot be measured.

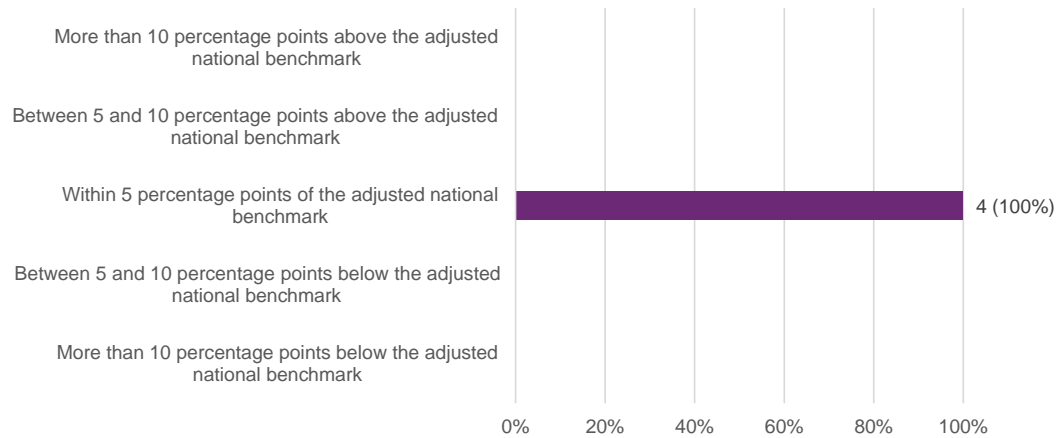

² The NDIA's new participant check-in process ensures that every scheduled review begins with a contact from the planner or partner to discuss review options well before any scheduled review date. Plans are extended automatically if they have not been reviewed before expiry so participants have continuity of support.

Provider and market metrics

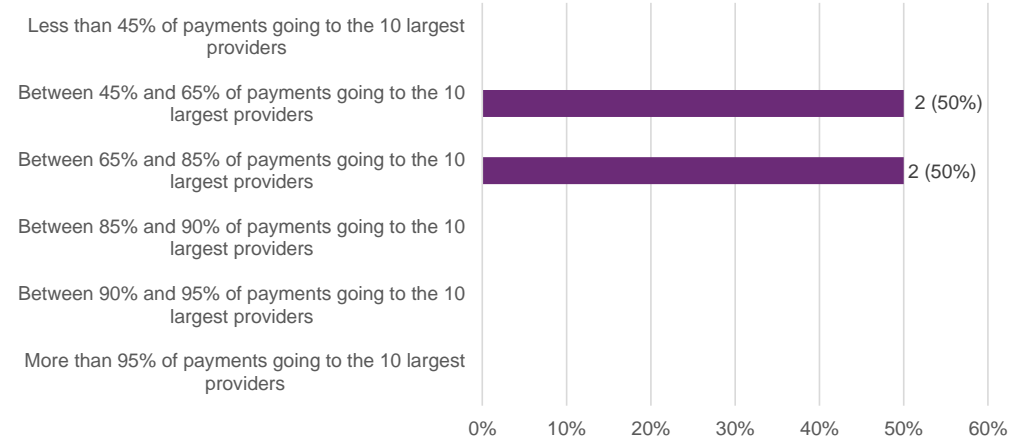

Market supply and participant costs	As at 31 Dec	As at 30 Sep
Total number of active providers (with at least one claim ever) ¹	1,400	1,340
Total number of active providers in last quarter ¹	509	517
Utilisation (6 month rolling average with 3 month lag) (%)	77%	74%
Plan utilisation by service district (% of service districts that are more than 10 percentage points below the benchmark) ²	0%	0%
Market concentration (% of service districts where more than 85% of payments for supports go to the top 10 providers)	0%	0%
Payments paid within 5 days (portal) (%)	99.7%	99.8%
Total payments from 1 July 2021 (\$m)	\$359m	\$181m
Total annualised plan budgets (\$m)	\$904m	\$875m

- Total annualised plan budgets at 31 December 2021 were \$904m and payments from 1 July 2021 were \$359m.
- The number of active providers at the end of December is 1,400, growing by 4% in the quarter.
- Utilisation was 77% from 1 April 2021 to 30 September 2021, with no service district in Tasmania more than 10 percentage points from the adjusted national benchmark.
- There were no service districts where the top 10 providers were providing more than 85% of payments.

Distribution of service districts by plan utilisation ²

Distribution of service districts by market concentration

Service districts below benchmark:

- TAS North: 75% vs 76% benchmark
- TAS North West: 77% vs 78% benchmark

Service districts closest to benchmark:

- TAS North: 68% vs 85% benchmark
- TAS North West: 68% vs 85% benchmark

¹ Active providers refer to those who have received payment for supporting Agency-managed participants.

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

³ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).

Summaries by service district

- TAS North has the highest number (3,292) of active participants, while TAS South East has the lowest (2,536).
- The average annualised plan budget at the end of December for active participants is \$78,900 (\$53,100 for participants not in SIL and \$375,900 for participants in SIL).
- The average payment for the 12 months ending 31 December 2021 is \$64,700 (\$38,500 for participants not in SIL and \$346,100 for participants in SIL).
- TAS South West has the highest average annualised plan budgets and payments across all participants.

¹ There is 1 active participant at 31 December 2021 residing in 'Other' service districts. 'Other' includes participants with service district information missing. The average annualised plan budgets and average payments for this group are not shown.

² Figures are not shown if there is insufficient data in the service district.
