¹ Participants who joined the Scheme prior to 1 July 2016 and those with initial plans approved after the end of 2021-22 Q3 have been excluded.

² Plans less than 31 days in duration have been excluded.

³ The new definition is included under s49 of the NDIS Act (2013) and replaces the previous definition of plan review.

⁴ The number of CALD participants excludes First Nations participants.

⁵ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants are excluded. Except for the parent and carer employment rate, only participants aged 15 and over are included. The Baseline results are at Scheme entry.

The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022.

¹ PSG results in the previous quarter may be restated due to ongoing logic refinement and changes in data quality.

² ECEI was previously known as Early Childhood Early Intervention. It is now known as Early Childhood Approach (ECA).

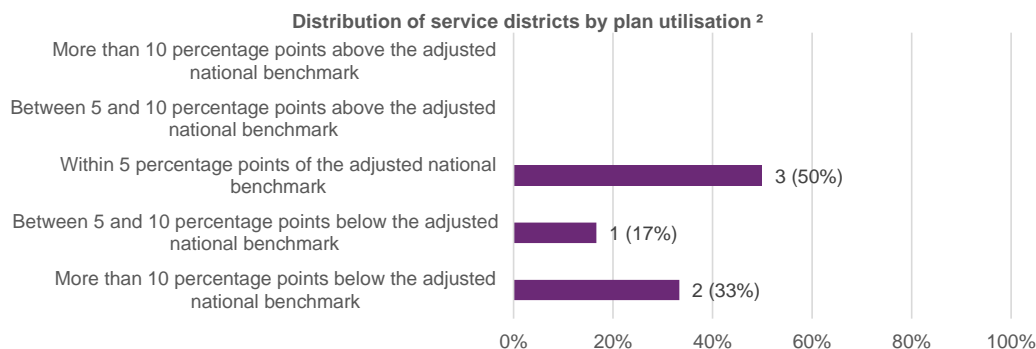

³ The NDIA's new participant check-in process ensures that every plan reassessment begins with a contact from the planner or partner to discuss review options well before any plan reassessment date. Plans are extended automatically if they have not been reassessed before the reassessment date so participants have continuity of support.

⁴ The definition of Participant Reassessment Request is included under s48 of the NDIS Act (2013) and replaces the previous definition of plan review request.

Provider and market metrics

Payments paid within 5 days (portal) (%)	99.8%	99.7%
Total payments from 1 July 2022 (\$m)	\$120m	\$413m
Total annualised plan budgets (\$m)	\$595m	\$551m
Plan inflation (current quarter % per annum) ^{3 4}	18.2%	6.3%
Inflation at plan reassessment (current quarter % per annum)	10.1%	2.0%
Inflation within a plan, between reassessments (current quarter % per annum)	8.1%	4.3%
Socioeconomic equity (%) ⁵	80%	85%

- Total annualised plan budgets at 30 September 2022 were \$595m and payments from 1 July 2022 were \$120m.
- The number of active providers at the end of September is 958, growing by 6% in the quarter.
- Utilisation was 75% from 1 January 2022 to 30 June 2022, with 33% (2 out of 6) of service districts in Northern Territory more than 10 percentage points from the adjusted national benchmark.
- In 17% (1 out of 6) of service districts, the top 10 providers provide more than 85% of payments.

Service districts more than 10% below plan utilisation benchmark:

- East Arnhem: 55% vs 71% benchmark
- Darwin Remote: 51% vs 66% benchmark

Service districts with top ten providers receiving more than 85% of payments:

- East Arnhem: 93% vs 85% benchmark

¹ Active providers refer to those who have received payment for supporting Agency-managed participants.

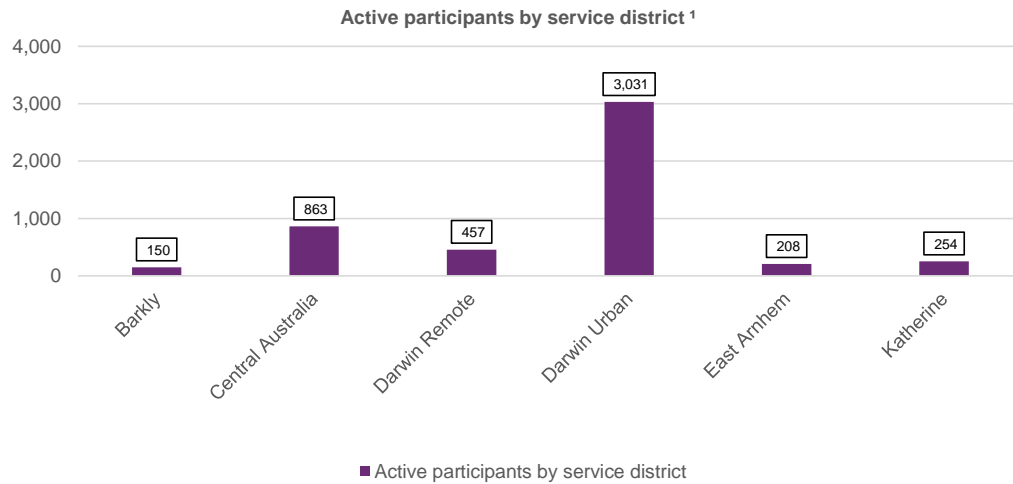

² The 'benchmark' in this analysis is the national average after adjusting for the proportion of participants in supported independent living in each service district and the length of time participants have been in the Scheme.

³ Total plan inflation consists of plan budget changes occurring at plan reassessment, as well as changes occurring within a plan, between reassessments. Previously the NDIA has not included the additional percentage changes in plan budgets that occur within a plan and before the scheduled reassessment, when reporting this metric, and this has underestimated the extent to which plans have increased.

⁴ The annualisation calculation of inflation excludes the impact of plan indexation in July following the Annual Pricing Review. The impact of this indexation is then explicitly added to the annualised calculation which was a 4.6% one-off increase Nationally.

⁵ Socioeconomic status uses deciles from the ABS Index of Education and Occupation (IEO). A higher decile indicates that people residing in that area have a higher level of skills and qualifications on average. The socioeconomic equity metric is equal to the average annualised plan budget of participants residing in the top two IEO deciles divided by the average annualised plan budget of participants residing in the bottom two IEO deciles (participants not in SIL and aged 0 to 64).

Summaries by service district

- Darwin Urban has the highest number (3,031) of active participants, while Barkly has the lowest (150).
- The average annualised plan budget at the end of September for active participants is \$114,800 (\$70,100 for participants not in SIL and \$569,600 for participants in SIL).
- The average payment for the 12 months ending 30 September 2022 is \$90,800 (\$47,700 for participants not in SIL and \$530,300 for participants in SIL).
- Central Australia has the highest average annualised plan budgets and payments across all participants.

¹ There are 218 active participants at 30 September 2022 residing in 'Other' service districts. 'Other' includes participants with service district information missing. The average annualised plan budgets and average payments for this group are not shown.

² Figures are not shown if there is insufficient data in the service district.
