Disability Reform Council Quarterly Performance Report

New South Wales - 30 September 2017

Overview

This report is the fifth quarterly report during the NDIS Transition period, which commenced on 1 July 2016.

Summary

Participants and Planning

As at 30 September 2017, there were 63,293 participants with approved plans (including children in the ECEI gateway).

As at 30 September 2017, plans approved and ECEI referrals represent:

- 88% of year to date bilateral estimate met (1 July 2017 - 30 September 2017)
- 89% of transition to date bilateral estimate met (1 July 2016 - 30 September 2017)
- 87% of scheme to date bilateral estimate met (1 July 2013 - 30 September 2017)

The satisfaction rating remained high with 82% of participants surveyed in the quarter rating their satisfaction with the Agency's planning process either good or very good.

Committed Supports and Payments

\$5.1 billion of supports has been committed to 58,367 participants. This includes \$2.3 billion of supports in respect of prior financial years including trial, \$2.6 billion of supports in respect of 2017-18[^] and \$175.2 million of supports in respect of later years*.

\$2.0 billion has been paid to providers and participants.

Overall, 73% of committed supports were utilised in 2013-14, 76% in 2014-15 and 74% in 2015-16. Currently utilisation is 65% in 2016-17, although this will likely increase as there is a lag between when support is provided and when it is paid.

Providers and Markets

5,251 approved providers, a 22% increase during the quarter.

80-95% of payments made by the NDIA are received by 25% of providers.

41% of services providers are individual/sole traders.

Mainstream Interface

90% of active participants with a plan approved in 2017-18 Q1 access mainstream services.

The proportion of participants entering in the current quarter accessing mainstream services is higher compared to prior quarters.

[^]Note: The \$2.6 billion in respect of 2017-18 only includes approved plans to date, and not all of these plans cover the full 2017-18 year.

*Note: The \$175.2 million committed in future years is due to current plans in place that have an end date past 30 June 2018.

Participants and Planning

As the transition phase to full scheme continues, the NDIS in New South Wales continues to grow with 14,433 additional participants with approved plans this quarter.

4,926 children were in the ECEI gateway at 30 September 2017. Of these, 2,882 were previously confirmed as ECEI at 30 June 2017 and an additional 2,044 entered the gateway this quarter.

Participants and Planning

The NDIS is transitioning to full-scheme in line with phasing schedules bilaterally agreed by State/Territory and Commonwealth governments.

Quarterly Intake

2017-18 Q1

Of the 8,373 participants deemed 'eligible' this quarter 57% entered from an existing State/Territory program.

Of the 14,433 plan approvals this quarter, 68% had transitioned from an existing State/Territory program and 90% entered with a permanent disability.

Overall, since 1 July 2013, there have been 77,141 people with access decisions, and 63,293 participants with an approved plan (including children in the ECEI gateway).

Note: Of the 14,433 initial plans approved this quarter, 1,310 were previously confirmed as ECEI at 30 June 2017.

Quarterly Intake Detail

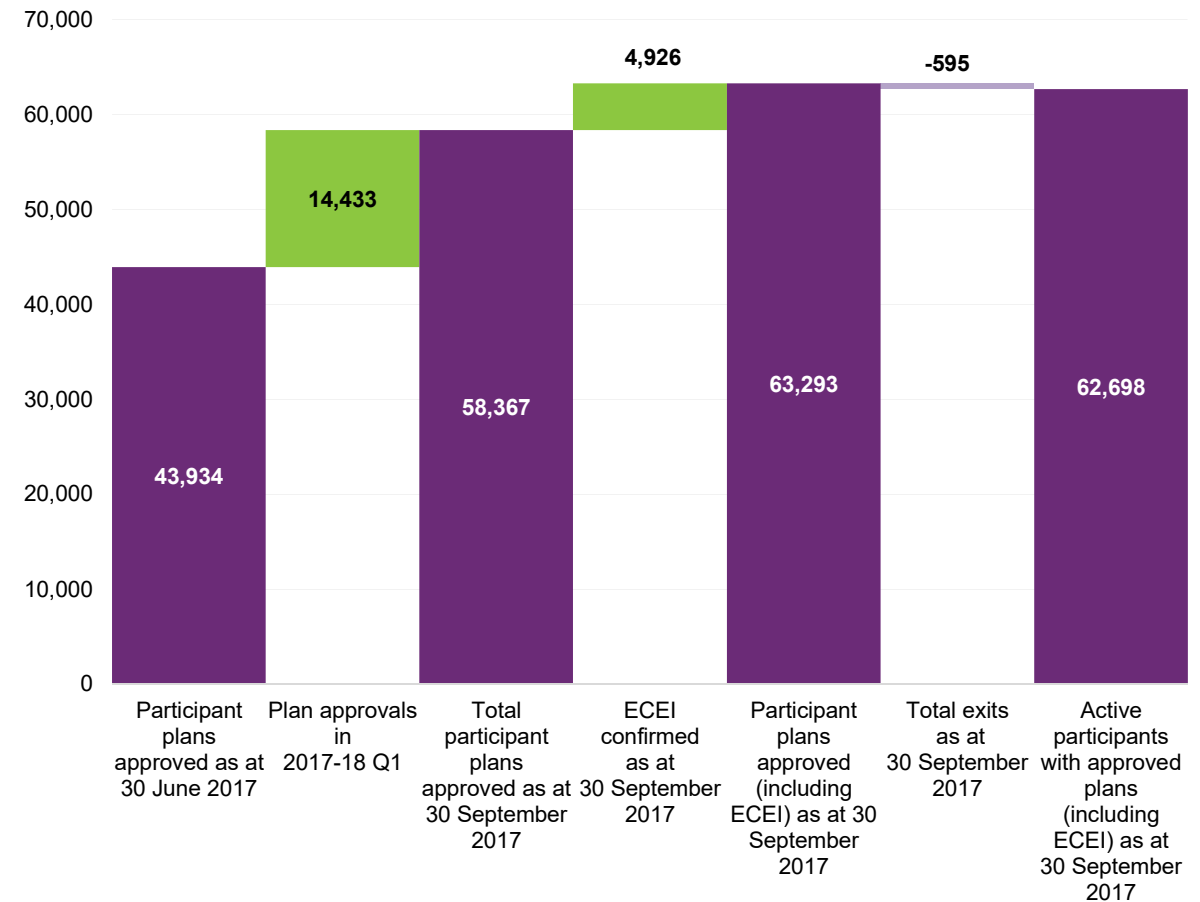

Plan approvals as at 30 September 2017

Plan approval numbers have increased from 43,934 at the end of 2016-17 Q4 to 58,367 by the end of 2017-18 Q1, an increase of 14,433 approvals.

As at 30 September 2017 there were 4,926 children with a confirmed ECEI referral bringing the total number to 63,293. Overall, 595 participants with approved plans have exited the Scheme.

Of the 4,926 children with a confirmed ECEI referral as at 30 September 2017, 2,882 were previously confirmed as ECEI at 30 June 2017 and an additional 2,044 entered the gateway this quarter.

Change in plan approvals between 30 June 2017 and 30 September 2017

In the quarter of 2017-18 Q1 there were 5,501 plan reviews. This figure relates to all participants who have entered the scheme (including transition).

Cumulative Position

Plan approvals as at 30 September 2017

As at the end of 2017-18 Q1, the cumulative total number of participants receiving support was 63,293 (including 4,926 children supported through the ECEI gateway). Of these, 38,608 transitioned from an existing State/Territory program and 5,202 transitioned from an existing Commonwealth program.

In addition, 7,320 participants were awaiting a plan as at 30 September 2017.

Cumulative position reporting is inclusive of trial participants for the reported period and represents participants who have or have had an approved plan.

Participant Profiles

Demographic profile of active participants with a plan approved in the quarter of 2017-18 Q1, compared with plan approvals as at 30 June 2017.

Participants entering in this quarter are older, on average, compared to participants with a plan approved in prior quarters.

Around 21% of participants entering in this quarter are aged 7 to 14 years.

Participant Profiles

Demographic profile of active participants with a plan approved in the quarter of 2017-18 Q1, compared with plan approvals as at 30 June 2017.

For participants with a plan approval in the current period:

- 26% of active participants had a relatively high level of function
- 42% of active participants had a relatively moderate level of function
- 32% had a relatively low level of function

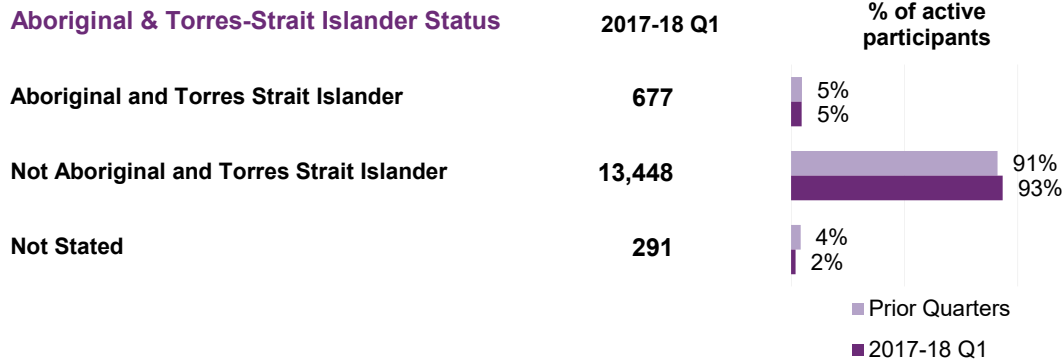

These relativities are within the NDIS participant population, and not comparable to the general population.

Plan Management Support Co-ordination

The proportion of participants who are fully or partly self-managing their plan has remained similar in 2017-18 Q1 (15%) compared with the prior quarters of 2016-17 (15%), and 38% of participants who have had a plan approved in 2017-18 Q1 have support coordination in their plan, compared with 35% in prior quarters of 2016-17.

Prior quarters (transition only)

2017-18 Q1

Plan Activation

Plan activation refers to the amount of time between plan approval and the commencement of the participant receiving support.

The percentage of plans activated within 90 days of approval were:

- 79% of plans approved in 2016-17 Q1
- 69% of plans approved in 2016-17 Q2
- 74% of plans approved in 2016-17 Q3
- 70% of plans approved in 2016-17 Q4

Duration to Plan activation for initial plans approved by quarter

Note: Given that plans approved in 2017-18 Quarter 1 are relatively new, it would be too early to examine the duration to plan activation for these plans and hence these have been excluded from the charts.

Plan activation can only be approximated using data on payments. As there is a lag between when support is provided and payments made, these statistics are likely to be conservative. That is, it is likely that plan activation is faster than presented. Further, in-kind supports have been excluded from the calculation, which further contributes to the conservative figures.

Participant Outcomes

Baseline outcome measures were collected from 97% of participants receiving their initial plan since 1 July 2016.

Of participants aged 25 and over:

- 51% choose who supports them
- 68% want more choice and control in their life
- 79% are happy with their home and feel safe or very safe there
- 36% were actively involved in a community group in the past year

For family/carers of children aged 0 to 14:

- 46% have a paid job
- 39% say they are able to work as much as they want
- 43% say they are able to see family and friends as much as they want

Participant Outcomes

Key measures on baseline social, economic and independence outcomes. These will be monitored into the future.

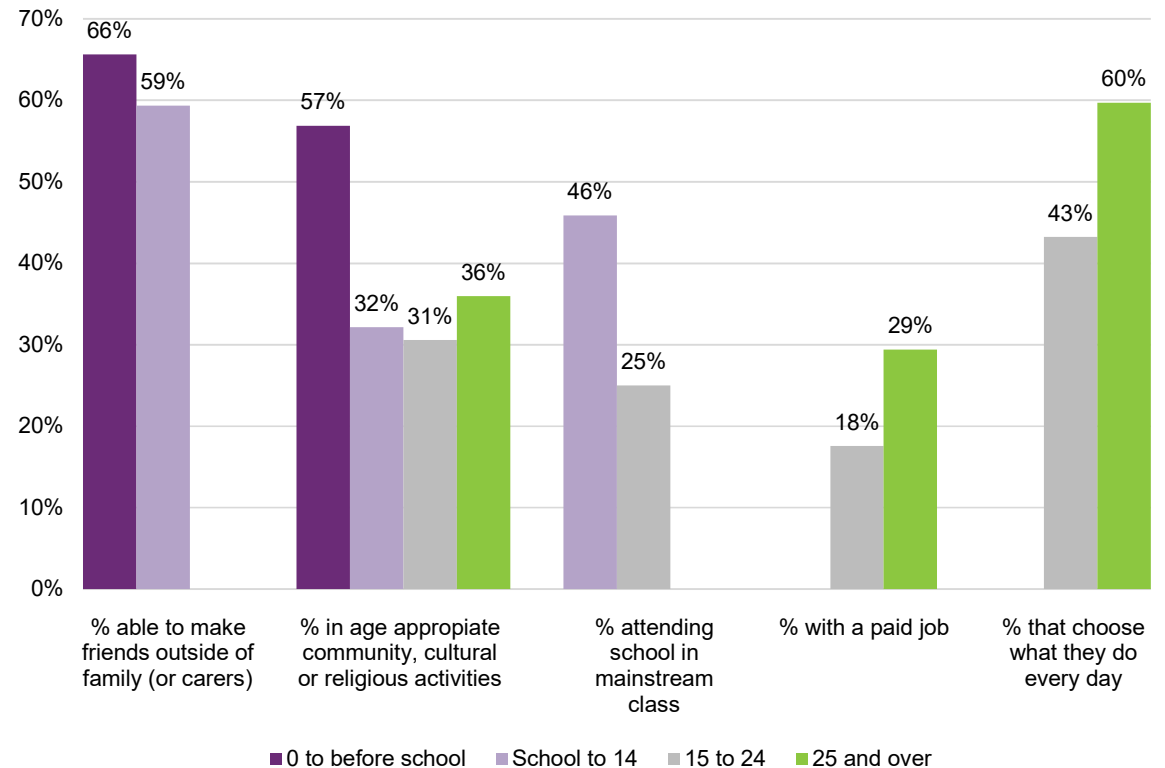

Participants aged 0 to before school:

- 66% were able to make friends outside of family/carers
- 57% involved in age appropriate community, cultural or religious activities (highest compared with other age groups)

Participants aged 25 and over:

- 29% had a paid job
- 60% choose what they do every day

Selected key baseline indicators for participants

Participant Outcomes

Responses to the “Has the NDIS helped?” questions.

Participants who entered the Scheme in 2016-17 Q1 and had their plan reviewed in 2017-18 Q1 were asked questions about whether the NDIS had helped them.

Percentage of participants responding “Yes” were:

- Higher for 0 to school age participants, particularly for daily living (98%)
- Lower for the school to 14 age group
- Higher for older adult age group than for the younger adult age group

“Has the NDIS helped?” questions

Participant Satisfaction

82% of participants rated their satisfaction with the Agency planning process as either good or very good in the current quarter. This has increased since the last quarter.

The Participant Pathway Review aims to improve the participant experience.

Proportion of participants describing satisfaction with the agency's planning process as good or very good - by quarter

Participant satisfaction continues to be high, but has dropped during transition, compared with trial site experience.

Committed Supports and Payments

Both committed and paid supports to participants are increasing in line with the growing scheme.

To date funding committed to participants with an approved plan amounts to \$5.1 billion (including support periods in the future), of which \$2.0 billion has been paid.

The \$5.1 billion committed support includes \$2.3 billion of supports in respect of prior financial years including trial, \$2.6 billion of supports in respect of 2017-18[^] and \$175.2 million of supports in respect of later years*.

[^]Note: The \$2.6 billion in respect of 2017-18 only includes approved plans to date, and not all of these plans cover the full 2017-18 year.

*Note: The \$175.2 million committed in future years is due to current plans in place that have an end date past 30 June 2018.

OVERALL, 73% OF COMMITTED SUPPORTS WERE UTILISED IN 2013-14, 76% IN 2014-15 AND 74% IN 2015-16. CURRENTLY UTILISATION IS 65% IN 2016-17, ALTHOUGH THIS WILL LIKELY INCREASE AS THERE IS A LAG BETWEEN WHEN SUPPORT IS PROVIDED AND WHEN IT IS PAID.
THE 2016-17 AND 2017-18 EXPERIENCE IS STILL EMERGING.

[^]Note: The \$2.6 billion in respect of 2017-18 only includes approved plans to date, and not all of these plans cover the full 2017-18 year.

^{*}Note: The \$175.2 million committed in future years is due to current plans in place that have an end date past 30 June 2018.

Committed Supports and Payments

Committed amount by year that the support is expected to be provided, compared with committed supports that have been used (paid).

Of the \$5.1 billion that has been committed in participant plans, \$2.0 billion has been paid to date.

In particular, for supports provided in:

2013-14: \$37.2m has been paid

2014-15: \$141.1m has been paid

2015-16: \$255.7m has been paid

2016-17: \$1,130.0m has been paid

2017-18 to date: \$418.4m has been paid

Committed and paid by expected support year

Total paid	37.2	141.1	255.7	1,130.0	418.4	0.0	1,982.4

Committed Supports and Payments

A greater proportion of initial plan approvals in 2017-18 Q1 have average annualised committed supports greater than \$100,000 compared with participants who entered in prior quarters when participants with shared supported accommodation (SSA) supports are included.

This is likely to reflect the phasing schedules outlined in the bilateral agreements. In particular, NSW had a large number of existing clients from group homes, community access and community high programs enter in Q1 2017-18.

This is also the case when SSA participants are excluded.

Distribution of average annualised committed supports by cost band (including SSA)

Distribution of average annualised committed supports by cost band (excluding SSA)

Committed Supports and Payments

Average annualised committed supports increase at a declining rate up to age 55, and then reduces at older ages.

The average annualised committed supports for participants aged 15 years and over has increased in the current quarter.

This is likely to reflect the phasing schedules outlined in the bilateral agreements. In particular, NSW had a large number of existing clients from group homes, community access and community high programs entered in 2017-18 Q1.

The average annualised committed supports for participants aged 0-14 years old has reduced in the current quarter.

Average annualised committed supports by age band

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group

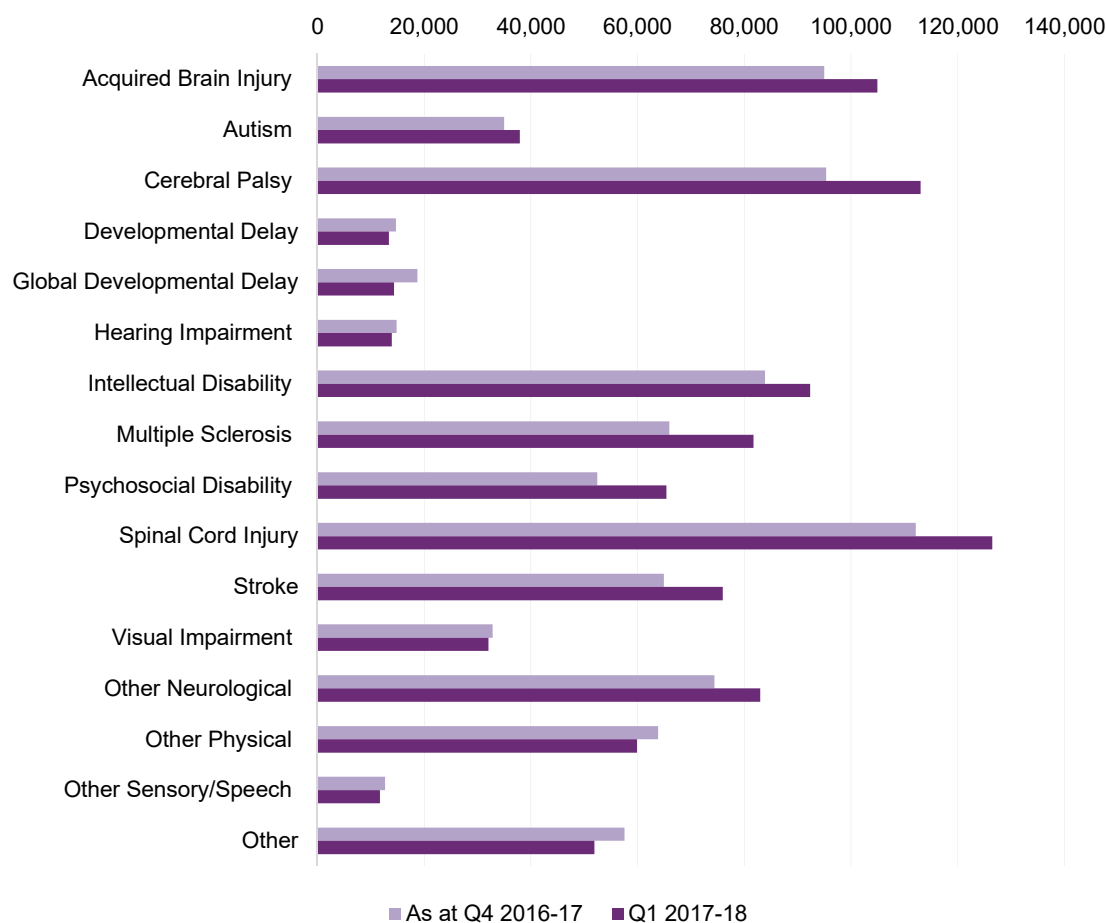

Committed Supports and Payments

Participants with Spinal Cord Injury, Cerebral Palsy and Acquired Brain Injury have the highest average annualised committed supports while participants with Other Sensory/Speech, Developmental Delay and Hearing Impairment have the lowest average annualised committed supports.

Participants with an initial plan approval in 2017-18 Q1 had higher average annualised committed supports across a range of disability types when compared with participants who entered in prior quarters.

This is likely to reflect the phasing schedules outlined in the bilateral agreements. In particular, NSW had a large number of existing clients from group homes, community access and community high programs entered in 2017-18 Q1.

Average annualised committed supports by primary disability group

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group

Committed Supports and Payments

The average annualised committed supports generally increase for participants with lower levels of function.

The average annualised committed supports for participants with an initial plan approval in 2017-18 Q1 is higher compared with participants who entered in prior quarters for participants with a low level of function, lower for participants with a medium level of function, and lower for participants with a high level of function.

Average annualised committed supports by level of function

Note 1: Average annualised committed supports are not shown if there are insufficient data in the group.

Note 2: High, medium and low function is relative within the NDIS population and not comparable to the general population.

Committed Supports and Payments

Utilisation of committed supports by year that the support was expected to be provided as at 30 June 2017, compared with 30 September 2017.

As there is a lag between when support is provided and when it is paid, the utilisation in 2016-17 and 2017-18 will increase, the latter significantly so. Utilisation for 2016-17 and 2017-18 is emerging at lower levels than in 2014-15 and 2015-16.

The utilisation of committed supports has increased for supports provided in 2016-17. This is due to payments in 2017-18 Q1 for supports which were provided during 2016-17.

Utilisation of committed supports as at 30 June 2017 and 30 September 2017

Providers and Markets

The scale and extent of the market continues to grow, with a 22% increase in the number of providers during the quarter to 5,251.

Providers and Markets

This section contains information on registered service providers and the market, with key provider and market indicators presented.

Provider registration

- To provide supports to NDIS participants, a service provider is required to register and be approved by the NDIA.
- Providers register with the NDIA by submitting a registration request, indicating the types of support (registration groups) they are accredited to provide.
- Providers are approved to deliver disability supports and services to participants of the NDIS if they have at least one registration group approved.

How providers interact with participants

- NDIS participants have the flexibility to choose the providers who support them.
- Providers are paid for disability supports and services provided to the participants.
