¹ The number of children accessing early connections is now being reported as a 'throughout the quarter' figure rather than an 'end of month' figure to better reflect the number of children supported by the Early Childhood Approach.

² The early childhood approach indicators under the new system (PACE) continue to be refined. Some metrics are still unavailable and "n/a" has been substituted until these are resolved further.

³ Trial participants (participants with initial plans approved prior to 1 July 2016) and those with initial plans approved after the end of 2023-24 Q3 have been excluded.

⁴ Plans less than 31 days in duration have been excluded from this tabulation, as these reassessments are more likely to represent corrections to the plan rather than a new plan reassessment to address a change in circumstance.

⁵ The number of CALD participants excludes First Nations participants.

⁶ The Outcome results include participants who have been in the Scheme for at least two years. Trial participants (participants with initial plans approved prior to 1 July 2016) are excluded.

⁷ "n/a" means that results cannot be measured.

• The PSG metrics are based on the recommendations of the 2019 Tune Review. The NDIA commenced measuring performance against the PSG metrics prior to the legislation of the Participant Service Charter and Guarantee. On 30 March 2022, the NDIS Amendment (Participant Service Guarantee and Other Measures) Bill 2021 passed in both houses of Parliament, and received Royal Assent on 1 April 2022. It introduces changes that provide greater flexibility for participants and the NDIA to amend plans.

¹ From the March 2024 quarter, performance is being measured using the available data on processes and dates. Milestones are being built into the new computer system to improve the capture of performance data. Where the performance remains unavailable for this quarter, "n/a" has been substituted.

² ECA stands for early childhood approach.
