30 May 2024

VALID will co-design a housing roadmap with NDIS participants and adults with intellectual disability. The housing roadmap and supporting tools and resources will be delivered to participants through workshops.

The workshops aim to:

- provide and share information
- foster confidence
- promote discussion and questions
- increase awareness of home and living support options.

Each workshop participant will develop a “My Housing Plan” which will reflect their individual home and living support needs and goals.
