PACE will eventually replace the NDIA's current computer system. We want to make sure NDIS providers are ready to support participants when NDIS plans start to be created on the PACE system later this year.

In this session we will:

- Deliver an overview of PACE.
- Examine the key change areas for providers, including system, practice and process changes to be aware of. Providers will have the opportunity to ask questions relating to PACE.

Sessions will be delivered via video-conference using Microsoft Teams, and are offered over multiple dates to allow flexibility for attendees.

Each session will cover the same content, and attendees should only register for one session to give others the opportunity to attend.

Registrations close one business days prior to the session date. We only accept individual registrations for events to ensure all attendees receive links to join.

One business day before the event, login details (including the MS Teams link) will be sent to the email address you provide at registration. Please check your email address is correct when registering.

Accessibility is important to us. If you have accessibility requirements, please advise when registering. A minimum of five business days' notice is required to book Auslan interpreters and live captioning services.

For any enquiries regarding this session, please contact events@ndis.gov.au and include the session name in the subject line.

Time is AEST
