The Neurodegenerative, Palliative Care and Rare Diseases Advisory Group (NPR) was established in May 2024 to provide strategic advice to the NDIA on a set of defined issues relating to Neurodegenerative and Neuromuscular or rare conditions or those requiring palliative care.

Membership

Membership includes representatives intended to reflect the diversity of the neurodegenerative disorder, palliative care and rare conditions communities.

Consideration is also applied with a view to geographic and gender diversity, as well as having a minimum of two people with neurodegenerative disorders as members of the group.
