14 January 2025

The NDIA has updated our public data, now current as at 30 September 2024.

Find updated data at:

- Datasets
- Participant dashboards
- Quarterly report supplements
- SDA demand data

This data is useful to anyone seeking to understand the NDIS in more detail. Information can be searched by area of interest, including participant numbers, plan budgets, providers, markets and plan utilisation.

The latest Participant, families and carer outcomes reports were released on 13 September 2024. These reports use the NDIS Outcomes Framework survey to provide information about health and wellbeing outcomes for NDIS participants and their families and carers.

The latest SDA demand data was released on 20 November 2024. Two previously provided columns ('Participants with SDA funding' and 'Additional Participants eligible for SDA') were removed in this latest release.

The remaining columns, 'Participants with SDA in use', 'Participants SDA eligible, not yet using SDA' and 'Total Participants with SDA in use or SDA eligible (not yet using SDA)' were updated to align with the latest quarterly report.

The Explore data tool will be refreshed in January 2025 with data as at 30 September 2024.

The NDIA regularly releases data about the NDIS. This is part of our commitment in the Participant Service Charter to be transparent.
