

Do you want to be your own boss? Join Carers Queensland for an Information Session and Discovery Workshop to learn more about the Be Your Own Boss – Microbusiness Program.

Microbusinesses, or businesses that operate on a very small scale, provide a great opportunity for people with disability to earn an income, increase self-confidence and achieve greater independence.

Carers Queensland’s Be Your Own Boss – Microbusiness Program aims to empower, educate and support people with disability to establish or create their own microbusiness.

The information session will provide all details about the program, including business mentoring topics, key dates/times/locations and provides an opportunity for potential program participants to ask questions and assess whether or not this program is suitable for them.

The discovery workshop will form the second part of this event and is for people with disability and their carers to workshop potential business ideas.

By connecting with local business and peer mentors, participants will learn how to grow their microbusiness in a supportive environment and showcase their business at a local marketplace.

Places for the 2025 program are limited, so to express your interest in taking part, it is essential that you register your interest with the Carers Queensland team.

Register online, call us on 1300 999 636 or email CQ.customerservice@ndis.gov.au.

[myID and RAM - Information session for providers](#)

From August 2025, providers have been able to transition from using Provider Digital Access (PRODA) to using myID and Relationship Authorisation Manager (RAM), providing a more secure way to access the NDIS provider portals. Access to the NDIS provider portals via PRODA is now

discontinued and all providers are required to use myID and Relationship Authorisation Manager (RAM). In this session we will: Deliver an overview of myID and RAM, with information on the key changes for all providers. Provide an opportunity for Q&A. Additional information: Sessions are delivered via video-conference using Microsoft Teams. Log in details will be sent...

Understanding the NDIS webinar: Assistive Technology

When NDIA talks about assistive technology, we mean equipment, technology, and devices that help you do things you can't do because of your disability. Assistive technology includes items designed to improve your daily life and help you do everyday activities. It may also help you do something more easily or safely. In this presentation we will cover: What assistive technology is How it can support independence and safety Examples of assistive technology How to access assistive technology through the NDIS Who is this webinar for? This session is designed for NDIS participants, carers, families, and kin, as well as supporting...
