Accredited specialist disability accommodation (SDA) assessors are third party assessors engaged by the SDA developer, owner or provider to certify compliance of a dwelling with the SDA Design Standard.

The NDIA does not engage SDA assessors to certify dwellings. Further information on SDA assessors can be found at [SDA Design Standard](#).

The accredited SDA assessors listed below certify a dwelling to a particular design category (or categories) in the SDA Design Standard at two stages: design stage certification of an SDA dwelling before construction commences, and final as built certification.

Although accredited SDA assessors are listed below according to a specific State or Territory, accredited SDA assessors are not restricted to these regions and can provide services across all States and Territories.
