This data is useful to anyone wanting to understand the NDIS in more detail. Information can be searched by area of interest, including participant numbers, plan budgets, providers, markets and plan utilisation.

Following a recent review, some publications have moved to a six-monthly cycle from Q3 2025–26. This includes supplements covering state and territory statistics (F–M), participants by service district (O), utilisation (Q), and access decisions and first plans (R).

The Participant dashboards will also move to the six-monthly cycle.

The NDIA regularly releases data about the NDIS as part of our commitment to transparency under the Participant Service Charter.
