1. What is the purpose of this operational guideline?

This Operational Guideline is intended to be used in conjunction with the Operational Guideline on <u>Planning</u> and provides additional guidance in relation to the preparation and review of a participant's plan when specific types of supports are under consideration.

In particular, this Operational Guideline provides additional guidance in relation to making a decision to <u>approve a statement of participant supports</u> which includes one or more of these specific types of supports.

3. Overview

Once a person becomes a participant in the National Disability Insurance Scheme (NDIS), they develop a personal goal-based plan with the National Disability Insurance Agency (NDIA).

A participant's <u>plan</u> must include the participant's statement of goals and aspirations and a statement of participant supports (see <u>what must be included in a participant's plan?</u>)

The statement of participant supports specifies, amongst other matters, the general supports (if any) that will be provided, and the <u>reasonable and necessary supports</u> (if any) that will be funded under the NDIS (section 33(2)).

When deciding to include *any* support in a participant's plan, the NDIA *must* have regard to a range of matters set out in the NDIS Act, including the participant's statement of goals and aspirations.

Specifically, before including any support in a participant's plan, the NDIA must:

- be satisfied that each support meets each of the criteria outlined in section 34(1)(a)-(f) of the NDIS Act and the Supports for Participants Rules (see <u>deciding to include supports in a participant's plan</u>);
- have regard to the specific principles relating to plans;
- have regard to the other considerations which may apply when including supports in a participant's plan; and
