

23 May 2022

The NDIA and Scope Australia want to hear from participants on the autism spectrum, or who have intellectual disability, Down syndrome, psychosocial disability or cerebral palsy.

If you have supported independent living (SIL) or individualised living options (ILO) funding, or a home and living goal, we want to know more about the supports you use, or want to use, to help you live more independently.

You can tell us by completing our survey, which:

- takes around 15 minutes
- is voluntary, anonymous and private
- is available in Easy Read

The survey closes on the 20 June 2022.

Go to the [Home and living capacity building participants survey \(ndia.gov.au\)](https://www.ndia.gov.au/home-and-living-capacity-building-participants-survey) to participate.

If you prefer to complete the Easy Read version it can be found on the [Have your say](#) page.

You can complete the survey on your computer, smartphone or tablet and you can ask someone you trust, like a family member, friend or support worker, to help you.

Your privacy is important to us:

- we will not share your responses with anyone outside the research team.
- completing the survey will have no impact on your NDIS plan, funding or services and is not related to the NDIS planning process.

This consultation forms part of our home and living research.

Visit the [Home and living - our research](#) page to learn more.

If you have questions about this project, contact Dr Lizzie Smith, Assistant Director at the NDIA Research and Evaluation Branch.

Alternatively, contact the NDIS directly on 1800 800 110 if you have any questions about this research project or its purpose.
