12 January 2023

The NDIA is improving support for young children and families.

We are giving families more information and support about what to expect when their child is due for an eligibility reassessment.

We want to know if these changes are working.

If you are a parent or carer of a child receiving early childhood supports you may be invited to take part in a survey.

Any responses will not impact the funding of any participants.

If you are a provider or partner organisation you may also be invited to take part in a survey and follow-up interview.

We are also using data to see whether the changes show improvements for young children and their families.

You can find out more about how our research is improving participants' lives.

Or if you have a question about this research, please email research@ndis.gov.au.
