9 February 2023

We want the NDIS to be inclusive for people with disability from all cultures and communities.

That is why we are co-designing a new Cultural and Linguistic Diversity (CALD) Strategy 2023-2027 and action plan with the CALD disability community.

We invite CALD people with disability, including carers, family members, providers and the disability community to have their say.

We want to know what you think about our solutions to improve the NDIS.

Your contribution will support our strategy and action plan to meet the needs of people with disability from all cultures.

Learn more about how we are co-designing the CALD Strategy.
