9 March 2023

The NDIA invites organisations to apply for grants to deliver innovative projects that empower our participants to explore and understand their home and living possibilities.

Projects will test and evaluate different models for providing participants with high quality information, assistance and connections about home and living options.

Successful projects will:

- empower participants to exercise more informed choice and control over their home and living supports and increase independence
- test and evaluate models that deliver impartial and accessible information and assistance to participants looking to explore their home and living options.

There is up to $1.5 million in grant funding available over the 2023-2024 and 2024-2025 financial years.

Grants will be between $80,000.00 (incl. GST) and $400,000.00 (incl. GST) depending on scope and complexity of the project design.

Grant applications close AEST 5 pm Thursday 20 April 2023.

Learn more and apply at Home and Living Demonstration Projects – Round 2.
