11 December 2023

The NDIA's home and living demonstration projects initiative looks at different ways of delivering home and living supports to give greater flexibility to participants and providers.

The demonstration projects look at different ways of delivering home and living supports that give greater flexibility to participants and providers, are outcomes-focused, encourage better practice and ensure Scheme sustainability.

It is an opportunity to test and evaluate home and living options to support a diverse home and living market.

Successful Round 1 demonstration projects were selected based on how they deliver supports that will achieve positive outcomes with their final project design.

We have published 5 stories about the Round 1 home and living demonstration projects. Each story discusses with the participating provider how they are implementing their project.

It highlights both the challenges they have faced and their achievements.

You learn about the demonstration projects initiatives and read the Round 1 provider stories on our Home and living demonstration projects webpage.
