Interventions to support economic participation and employment

On this page What approach did we take for the evidence review? What did the review find? What does this mean for participants? What are we doing with these findings? The Agency is committed to supporting participants who want to start thinking about how to get a job. This might include funding capacity building supports to help participants build their work skills if they need extra help because of their disability As part of this commitment, the Agency commissioned and undertook research to learn what works to help people with a disability to find and keep a job. Two thirds...
